Soviet Spacemen Down; Flight's End a Surprise

Had Salyut Linkup for 5¹/₂ Hours

By Theodore Shabad MOSCOW, April 25 (NYT) .--The Soviet Union's three-man spacecraft Soyuz-10 made an unexpectedly early return to earth last night after having docked and flown jointly with the unmanned orbital laboratory Salyut for a period of five and a half hours vesterday.

The landing of the manned craft after a relatively brief two-day flight confounded those observers who believed that the latest Soviet space mission would be more ambitious and would mclude a boarding of the unmanued scientific workshop. Tass, the Soviet press agency,

announced this morning that the mission's objectives had been fuifilled and that these had involv-ed basically the checking out of improved systems for mutual search rendezvous, docking and END - OF MISSION—Cosmonauts Nikolai Rukavishnikov, Vladimir Alexei Yeliseyev (left to right) at press conference in Karaganda yesterday. separation of the manned Soyuz and the unmanned Salyut.

On the surface, this experiment was similar to several carried out by U.S. astronauts as early as **India Charges Pakistan With Attack** 1966 when manned Gemini spacecraft docked several times with unmanned target vehicles.

Russians Not Ready

The Soviet manned spacecraft carried out its maneuvers with what has been described as an orbital laboratory and may well be the corc vehicle of a future manned workshop to be supole mented by Soyuz craft. But it is now clear that the Russians were not yet ready to assemble such a workshop and man it, at least for a relatively short period of time.

CALCUTTA, April 25 (AP).- from East Pakistan is clustered akistani troops in company around a disused railroad station Pakistani troops in company strength fired across the border yesterday at the Indian village of Petrapole, a spokesman for Indla's border security force rcported.

He claimed the Pakistani unit took up positions along a disused railroad track, which crosses the frontier, and continued firing for about one hour before withdrawing.

orbited in 1973. The Soyuz-10 craft, carrying Col. Vladimir A. Shatalov, com-Col. Vladimir A. Shatalov, com-mander, and Alexel S. Yeliseyev President in and Nikolai N. Rukavishnikov, civilian engineers, returned to earth in the customary Sovuz landing zone, 75 miles northwest of the city of Karaganda in Kazakhstan.

The landing zone is about 400 miles northeast of the presumed site of the Baikonur Space Center, from which the manned craft was launched Thursday morning. The space center is a secret community and its geographical location has not heen entered on Soviet maps.

This secrecy, which pervades virtually all aspects of the Soviet space program, has kept official descriptions of mission objectives and mission events to a minimum, often leaving in doubt what the actual accomplishments wcre.

The Tass announcement of the Soyuz landing this morning was the most complete account issued during the entire week, ever since the Salvut laboratory was orbited early on Monday. The weight and size of the Salyut have not been disclosed, but it is presumed to be the largest object yet sent (Continued on Page 2, Col. 1)

Jonas Again Austria Vote

VIENNA, AITI 25 (UPI) ----Austrian voters re-elected President Franz Jonas, 71, to a second,

six-year term today. Mr. Jonas, a Socialist, received 488,372 votes (52.79 percent) while his Conservative opponent, Kurt Waldheim, an ex-foreign minister and Austria's ambassador to the United Nations, wou 2,225,368 votes (47.21 percent).

Although the president is mainly a figurehead, the Austrian Constitution enables him to make important decisions in emergen cles.

Chancellor Bruno Kreisky, who has headed a Socialist minority cabtoet since his party's 1970 general election victory, supported Mr. Jonas's re-election campaign. Mr. Jonas's victory is expected to strengthen the position of the Kreisky cabinet. Political observers predicted that Mr. Kreisky, after tooay's victory, may declde on new general elections in which his party would seek an absolute majority.

The Pakistanis resumed the on Thursday. Envoy Lodged at Airport

In Colcutta, Madhi Masud, Pakistan's new deputy high commissioner, has now been lodged at the airport VIP lounge. The building is surrounded by police. Strikes and demonstrations have forced him out of two botels and a government guest house since his arrival from Ne7 Delhi last Wednesday.

Mr. Masud's predecessor defected to Bangla Desh and ran up the green, red, and gold secessionist flag over the high commission building.

The West Bengal state government has refused Mr. Masud's demand for his eviction until the Pakistan government gets a court order.

In New Delhi, India also aocused Pakistan yesterday of escalating the diplomatic crisis on the subcontinent and said it would close down its deputy high commission in Dacca tomorrow at the request of the Pakistan government.

N(

By Richard Severo,

STONY BROOK, L.I., April 25 (NYT) -A candidate for a Ph. D. in history says he has uncovered evidence for the first time that Germany had a formal plan to attack and invade the United States at least 14 years before the United States entered World War I, in 1917. The plan was called Operation

Plan III and, according to Holger Plan III and, according to house H. Herwig, now completing his doctoral thesis at the New York State University here, it had for a time the full hacking of both Kaiser Wilhelm II and the German military establishment. Basically, Mr. Herwig said to

an interview Friday. Operation Plan III involved sending the German fleet into the Carib-bean. From the area of Puerto Rico, the fleet was to have been in a position to attack various targets on the Eastern Seaboard

of the United States. Among the suggested targets were New York, Boston and Norfolk, Va., and one early suggestion had the fleet steaming into New York Harbor to bombard the city while another force at-

tacked castern Long Island. In the years following World

War I, the kaiser denied there had ever been any plan of military or naval action against the United States. "The kaiser's memory had obviously faded," said Mr. Her-

wig. He documented the beginning of planning as the winter of 1898, when an ambitious young naval lieutenant named Eberhard von Mantey decided to formulate a theoretical war plan against the United States.

Within two years, the German Admiralty was at work on the project and on Nov. 27, 1903, it was officially called Operation Plan III. The plan was dropped three years later because Ger-many concluded that the next war would be fought on two fronts and that it could not spare

the men and materiel to attack the United States. Mr. Herwig said he accidentally found evidence of the invasion plans a year ago while conducting research to the German military archives at Freiburg. West Germany. At the time, Mr. Herwig was doing general research on his specialty, Wilhelmian Germany. much of it very hard to read.

The evidence was contained in 1.500 handwritten pages that were language with case. He is 29 years old and earned a bachelor's degree in history at the University of British Columbia in Vancouver and a master's at Stony Brook. The invasion plans clearly outlinc the intentions, and frequent-

ly are done to the handwriting, of Germany's top military lead-ers in the years leading up to World War I. There are lotters from Rear

Adm. Alfred von Tirpitz, probably the most important force in mobilizing support for the war; Vice-Adm. Otto von Dederichs, who at the turn of the century was chief of the Admiralty staff; Count Alfred von Schlieffen, chief of the army emergicateff. Where of the army general staff, whose plan for tovading Belgium in 1914 drew Britain and Russia into the war, and even a young major named Erich Ludendorff, who went on to hecome chief of staff

By Homer Bigart

FORT-AU-PRINCE, Haiti, April 25 (NYT).-With pomp and liturgy and a few touches of terror, this impoverished black republic yesterday buried its national leader. François Duvalier, the enigmatic dictator who ruled it for 13 1/2 years.

The religious service at the palace had been completed without incident and the head of the long procession of mourners was entering the gates of the National Cemetery when a sudden panic

Soviet Crew Surprises by Flight's End

(Cootinued from Page 1) aloft by a Soviet rocket. The previous record payload was the 17-ton Proton-4, a cosmic ray satellite launched in 1968.

According to Tass, the joint Soyuz-Salyut experiment W8.8 achieved in two stages. In the first, the Soyuz was brought automatically within 590 feet of the Salyut target vehicle. In the second, the Soyuz was approached manually and docked.

The docking, which took place at 0447 GMT yesterday, was not reported here until yesterday afternoon in an ambiguous Tass statement that mentiooed "work on docking and undocking" in-volving the two vehicles.

The full extent of the activities was not revealed until an evening news program showed taped television pictures of the Soyuz-10 moving away from the Salyut. As the pictures received from a camera installed on the orbiting laboratory appeared on the home screen, a commentator said:

"A rigid mechanical linkup was achieved, followed by ,undocking of the manned ship from the orbital station. After the end of this experiment in maneuvering, both vehicles continued to fulfill their program."

There was no information of the specific character of new design elements that are said to have been incorporated into the Soyuz craft, particularly whether it has now heen equipped with a crew transfer tunnel passing through the docking mechanism.

Train in Terminal

A Soyuz-10 crew member, who returned to earth at dawn today. described yesterday's docking of his ship with the huge orbital laboratory Salvut as "a little like a train entering a railroad terminal."

The astronaut, Mr. Yeliseyev, was groping for words as he described the linkup to Soviet reporters after the Soyuz had ended an unexpectedly brief; 48-hour mission with a smooth landing in Kazakhstan.

"The orbital space station Salyut looked overwhelming," Mr. Teliseyev said at a news confer-

seized marching mourners and the crowds along the streets. It began inexplicably on the flower-strewn avenue leading to the cemetery about a mile from the palace. It began not with a volley of shots or even a sudden scream. The city lay silent in the midday heat except for the dolorous music of the bands and the distant sullen banging of "cannons of condolence" in Herces of Independence Square.

No one, not even the officers of the regular armed forces, the police nor the scowling Tontons Macoutes (civil militia) on patrol could explain how it started. But suddenly the street was

churning in a wild melee of Haitians running madly about in search of an exit. Some fell against the metal shotters of closed stores. Two men fell out of sight down a manhole. A marching hand dropped its instruments and ran. Militiamen armed with rifles and pistols at the ready ran about in circles shouting orders at the crowds.

Order Restored

It took several minntes to restore order. Then the slow march was resumed, only to he interrupted a half hour later by the same inexplicable wave of fear that sent the crowds running into the side streets. Again the march was delayed

for a few minutes. Diplomats in black coats and

silk hats moved by, including United States Ambassador Clin-ton Knox. Then came the blackcapped judges of the Supreme Court and several lines of officers, who carried on red cushions the many decorations of the

Behind the flower - covered hearse rode Duvalier's 19-year-old son and new president for life, Jean-Claude; the late ruler's widow; their eldest daughter, Marie-Denise, and, her towering 6-foot-5-inch husband, Max Dominique, Haitian Ambassador to France, and their young daugh-

ters, Nicole and Simone. At a religious service in the Hail of Busts in the Presidential Palace, President Duvalier's body was viewed for the last time. He had been transferred from the neonlighted box in which he

reposed Friday, when thousands filed past his hier, and now lay in a coffin of gleaming bronze. All the Bishops All the bishops of Haiti were

present on a platform at the end of the hall, and the Archbishop of Port - au - Prince, François Wolff-Ligonde, presided, Duvalier fought a successful battle with the Vatican for a "nationalized" clergy, and now even the archhishop is a Haitian,

The ritual of the mass was interrupted for the singing of a special ode to the leader, to the Chorale movement of Beethoven's Ninth Symphony.

"We thank thee, François Duly requested with regard to the valler, for having given so much to us," it said. "You are great whereabouts of insurgents, the disposition of insurgent camps, and beautiful and just. Up there the location of hand bombs, explosives and firearms and other our fatherland." weapons. There was an eerie chorus of The government has also prowailing from the crowd outside. Women screamed "Papa Doc, hibited the publication of nine newspapers allegedly published Papa Doc" as the cortege moved hy the insurgents under the emergency regulations now in eftoward the cemetery. "Papa Doc" was interred in the small mausoleum he erected for his father, a school teacher, who died **FBI** Probes 13 years ago. The edifice is cream colored, slightly elevated above the ground, and entered by Professor steps of bright green tile. WASHINGTON, April 25 (NYT). deal with the storage of nuclear warheads or the deployment of nuclear weapons in Japan. Under the Mutual Security Treaty of 1960, the United States may store or deploy nuclear weapons on Japanese territory only with the permission of the Japanese government.

> A memorandum attached to that treaty, which is still in effect, says that "major changes in the deployment into Japan of United States armed forces, major changes in their equipment, shall be the subjects of prior consultation with the gov-ernment of Japan."

Noclear Weapons Unmentioned

Although nuclear weapons were not specifically mentioned, both governments have said that "prior consultation" applies particularly to nuclear weapons and means that Japanese consent must be obtained before they can be deployed in Japan.

The movement of nuclear arms through Japan is believed to be exempt from "prior consultation" hy defining such movements as not constituting a "major change in their equipment."

Since 1964, nuclear-powered submerines, many of them armed with nuclear weapons, have called regularly at Japanese ports. In January, 1968, the nuclear-powered aircraft carrier Enterprise, which is widely believed to carry nuclear warheads, called at Sasebo in southwestern Japan.

Japanese leftists have often

Ex-Marine Describes '69 Foray **U.S. Drive Into Laos Revealed**

By Terence Smith WASHINGTON, April 25. A former Marine lieutenant told a group of congressmen Friday that his unit penetrated nearly five miles inside Laotian territory in February, 1969. as part of a two-week "interdiction and amhush" mission

The operation, the former soldier said, involved 1,500 U.S. Marines and was subsequently reported by the Military Command in Salgon as having taken place entirely within Quang Tri Province, South Vietnam.

The casualties suffered during the operation also were listed as having occurred 'in South Vietnam, the lieutenant said.

"We were told not to talk with newsmen about the fact that we had entered Laos," the lieutenant, Everett B. Carson, 23, a former platcon leader with G Company, 2d Battalion of the 9th Regiment, 3d Marine Division, said.

It was the first time an incursion of this magnitude by American troops into Laos had been publicly documented here. In March, 1969, The New York Times reported that about 109 U.S. Marines had seized and held several hilitops just inside Laos. Neutrality Violated .

The operations violated the much-abused neutrality of Laos, which was provided for in international agreements reached in Geneva in 1954 and 1962. The North Vietnamese also have used Laotian territory, however, to move men and materiel down the Ho Chi Minh Trail, since 1965. Mr. Carson told his story before an overflow audience attending a special congressional hearing in the New Senate Office Building. The hearing was attended by Democratic senators George S. McGovern of South Dakota, Walter F. Mondale of Minnesota and Philip Hart of

Michigan and Rep. Charles A. Vanik, D., Ohio.

Congress hear testimony from some of the 1,000 Vietnam veterans who have gathered in Washington to protest the war. Dressed in a green fatigue jacket over street clothes, the red-haired former Marine said that his unit was participating in an operation code-named Dewey Canyon 1-a vast sweep of the densely jungled A Shau Valley in northwestern South Vietnam adjacent to the Laotian border. A force of 10.000 South southern Laos shot down 14 U.S. aircraft between April 9 and 13, the Fathet Lao news agency

slon, Mr. Carson said, about 1,500 American Marines went into Laos up to a limit of 8,000 meters or 4.8 miles. He said that they remained in Laos for 14 days, conducting search and ambush operations along Route 932, a major enemy supply route into the A Shau Valley.

Not 'Hot Pursuit' Mr. Carson . emphasized that the units were not sent across

Marine's account by the Pent- fense Melvin R. Istoff testified agon last night. A senior officer that U.S. forces had made brief who declined to be identified incursions into Laos de specific, said, however, that Mr. Carson limited missions, He did not had exaggerated the length, size and scope of the operation. 4 Advisers Ask Lon Nol To Form New Government

PHNOM PENH, Cambodia. April 25 (UPI) - A committee of four senior advisers has asked Lon Nol to form a new government in which three deputy pre-miers would do most of the work and hold most of the responsibility, one of the four advisers said yesterday. Lon Nol resigned as premier because of his ill

health six days ago The adviser, Son Ngod Than; 65, onetime leader of the Khmer Serat (Free Cambodia) movement, which opposed former chief of state Prince Norodom Sihsnouk, said that no one had seen Lon Nol since last Sunday except.

his doctor. The adviser who is staying at the government's state palace on the Phnom Penh riverfront, said he was summoned here from Saigon Wednesday to serve on the advisory committee with three other men, Pho Procung, former ambassador to France. Au Chhouen, former ambassador to Britain, and Paph Chhoenn, for-mer minister of information. er minister of information. The four men submitted a list of recommendations to Lon Wol

himself.

-The Cambodian high: command said five government soldiers were killed and 17 wounded in the fighting.

Early today three heavy Sovietmade 122-mm rockets crashed into the outskirts of Phnom Penn, wounding five civilians, the Cambodian high command reported. A spokesman said the rockets destroyed three buildings when they landed in quick succession close to Phnom Penh's Pasteur

Institute," which ... manufactures serums -against snakebite and other anti-toxins. The spokesman said the rockets, which have a range of - 7. T.A

niore than six miles, were fired from a marshy region on the 77.6 5 A22, 11, east bank of the Mekong River _____ TC where the Cambodians have been 12.00 trying for several -- months to my -dislodge Communists from camps and fortifications within artil-1101 lery range of downtown Phnom ... Penh.

The special one-day hearing was called to let members of in a six-day period since the halt in the bombing of North.

Vietnam on Nov. 1, 1968. It underscored the U.S. government'e expanded policy governing air attacks against North Vietnam in what appears to bea deliberate strategy of increas-ing pressure on Hanoi parallel with continuing withdrawals, of American troops. [Pro-Communist forces in

Vietnamese soldiers is currently operating there in a successor operation At the height of the 1969 mis-

ing to push the Communists north against fierce opposition.

Karaganda, which wa hroadcast later by Moscow radio.

"I ... I don't even know what to compare it with. It was . . . you know, it was a little like a train entering a railroad terminal. That's how we felt as our rather big Soyuz cased up to the station."

Col. Shatalov, the Soyuz commander, said that the main objective of the mission had been to check out a new system of rendezvous and docking between the relatively small Soyuz and the Salyut.

Neither he nor Mr. Rukavishnikov mentioned the wide speculation during the two-day mission that one or both engineers might transfer from their spaceship to the Salvut.

Further Experiments

Soviet commentaries said that further experiments would be conducted with the oribiting Salyut, which is presumed to be a prototype of a core vehicle for a future permanent manned space station. The nature of the further experiments and the planned

duration of the Salyut program have not been disclosed. The lifetime of the laboratory would depend on the height of the orbit in which it is traveling.

The docking and flve-and-a-half-hour joint flight with the Soyuz before separation is believed to have taken place in an orbit of less that 150 miles from earth. At that altitude a space vehicle is gradually pulled toward the earth by the friction of the minute amounts of atmospheric gases it encounters.

Cosmos-408 Launched

MOSCOW, April 25 (UPI) .--The Soviet Union yesterday launched Cosmos-403, Tass announced.

Tass gave no details of its miseion. Cosmos-408 had an initial orbit of 102.1 minntes and an orbital inclination of 82 degrees.

Tass said that Cosmos-408 was orbiting at a minimum of 131 miles and a maximum of 956 miles from the earth's surface.

U.S. in Indian Ocean

WASHINGTON, April 25 (AP). A U.S. naval flotilia of six warships, including an aircraft car-rier, had ended a five-day antisubmarine warfare training exercise in the Indian Ocean, the Defense. Department announced. The exercise, which ended Fri-day, was the first appearance of a sizable number of U.S. naval vessels in the Indian Ocean in nearly seven years.

said "there is no such agreement between the two countries."

But other authoritative sources said that the agreement allowed American naval vessels, including nuclear-powered submarines and surface ships, to call at Japanese ports while armed with nuclear warheads.

> The agreement further provides that American aircraft carrying nnclear bombs may land in Japan while on patrol, on training

flights, or in emergencies. Disclosure of the transit agreement adds a new dimension to the reversion of Okinawa to Japan, which is scheduled for 1972. On Okinawa, the major American base in the Western Pacific, the United States has the right to store and to deploy nuclear weapons until the island is returned to Japanese rule.

Loopholes in Treaty

After reversion, however, the United States will lose that right, since the Okinawan bases will governed by the same rules that apply to American bases in Japan proper, where nuclear arms are not permitted permanently. But American forces will still be allowed to move nuclear arms through the airfields and harbors of Okinawa.

The transit agreement does not

officials). or educational fields, or is a labor leader or prominent LISBON, April 25 (AP) .- A medical team from the United States Air Force base at Lages, A Quaker couple was checked out—and described as "loyal Americans" by their neighbors in the Azores, parachuted yester-day to the aid of a critically burnafter they invited a cultural ed seaman aboard a Soviet freighter, a military spokesman

said. Capt. G. Kirwin, information officer at Lages, said port author-ities at nearby Faial Island picked up an SOS from the freighter Kegums and relayed it to the hase.

The base desnatched a rescue aircraft to the Soviet ship, lying in the Atlantic 800 miles southwest of Lages. A two-man medical team parachuted and were on board treating the sailor, Capt. Kirwin said.

Russia Tests Bomb

WASHINGTON, April 25 (AP). -The U.S. Atomic Energy Commission today reported receipt of seismic signals believed to be caused by a Soviet underground noclear test. The signals came from the Semipalatinsk area in Soviet Siberia, the usual Russian testing ground-

accused the conservative government of allowing the United States to hring nuclear weapons into Japan, Anti-American elements have used the nuclear issue to hammer at the Japanese alliance with the United States.

But the importance of the alliance and security considerations apparently have overridden the potential political troubles.

Kaiser's Germany Had Plan In 1903 for Invasion of U.S.

(Cootinued from Pege 1) United States Navy. Mr. Herwig said, adding that the lieutenant had written:

Navy of the United States that every citizen is allowed a say and that in case his opinion is re-jected he can ruthlessly raise the greatest noise in the press." As for the United States Army, he felt that it offered its men good food and good housing hot almost nothing to do. "The result," he said, "is very slack dis-

cipline, ridiculous exercises and many desertions." The lieutenant's opinion American fighting potential led him initially to minimize the need for infantry. He formulated one plan in which a German fleet would be divided into two at-tack forces, one at the end of Long Island, the other steaming

into New York Harbor and bombing the city as well as Fort Tompkins and Fort Hamilton. He further reasoned that if the attack failed, the force could withdraw and occupy Block Island, because it afforded good

Hungarians Receive Some Choice at Polls

BUDAPEST, April 25 (UPI)-Seven million Hungarians went to the polls today with more electoral rights than ever before in the Communist era but they still did not have an alternative choice to the party. They elected a new parliament,

a one-party Communist legis-lature, and some 69,000 local councils on the basis of a new electoral law that allowed the nomination of rival candidates to the official nominees of the party. But all the candidates, party-backed or not, had to run for the Partictic People's Front,

the horder in "hot pursuit." the Pentagon doctrine under which American forces are permitted to cross the border for short retaliatory attacks after being fired upon by enemy units. The implication of his remarks was that it was an American-initiated operation to search out and find

telegraph communications with Germany. In any case, he figured that the occupation of New York would not have to last more "It is very detrimental for the

than two or three weeks before America asked for peace terms. The lieutenant submitted his plans to Vice-Adm, August Thomsen, chief of the First Battle Squadron, and soon the invasion plans were not just the dream of an eager young officer-but a honafide project that the Admiralty pushed.

Confer in Paris The lieutenant's original plans for an outright invasion of New York were put aside. Admiral U.S. congressmen told North Viet-Thomsen was not so sure he namese officials yesterday that if could rely on the element of Hanol released all U.S. prisoners eurprise.

the United States would be com-pletely out of Vietnam by the end of this year. Admiral Thomsen considered attacking Puerto Rico, which he thought would offer little re-sistance, and from there carry the attack to the mainland of the United States. He also rec-ommended confining the attack to the East Coast. Of America's vastness he wrote: "I don't even know its size."

Ultimately, the plans were refined until the Admiralty decided that the United States should best be attacked by sending ships from Germany first to the Azores, where they would stop for coal, then on to either Puerto Rico or Culebra, an island off Puerto Rico.

The kaiser was apparently enthusiastic about the possibility of an attack. As Mrs. Tuchman noted in "The Guns of August," the kalser complained to the king of Italy; "All the long years of my reign my colleagues, the monarchs of Europe, have paid no attention to what I have to say. Soon, with my great navy to endorse my words, they will be more respectful."

later, huddling in the shade, held small parties with apple wine, ice cream, peanuts or, occasionally, marijuana. One section of the march was made up of late arrivals, the men clad in suits and ties and

their hair trimmed close, behind a hanner reading: "Business Executives for Peace."

West Coast March

SAN FRANCISCO, April 25 (NYT).—Actfve-duty servicemen led a peaceful march of thousands through the streets of San Francisco yesterday in a demonstra-tion against the war.

A later rally in Golden Gate Park was disturbed when militant groups, insisting that they be heard, seized control of the speaker's platform.

Ensuing scuffles were said to have discouraged several scheduled speakers, including Rep. Paul N. McCloskey, the maverick California Republican who has threatened to challenge President Nixon in next year's presidential primaries. Rep. McCloskey left the rally

ithout speaking, but organizers the demonstration said that his departure was dictated only by a previous engagement.

The peace demonstration was the largest ever held on the West Coast Police estimated that there were more than 80,000 persons in the parade that wound through six miles of city streets. The parade began at 9 a.m. at the Embarcadero, downtown on San Francisco Bay, and ended at Golden Gate Park on the shore of the Pacific Ocean. The rally was held in the park and the crowd there was es-timated by the police at nearly 100,000, more than twice the number they set for the moratorium rally here in November of 1969. A spokesman for the National Peace Action Coalition, sponsors of the demonstration, said that

A demonstrator in San Francisco painted his face to resemble the U.S. flag.

the number of participants was closer to 300,000. The takeover of the platform

was reportedly led by Abe Tapia, president of the Mexican American Political Association. Mr. Tapia was then joined on the platform by spokesmen and members of Indian and other Mexican American groups.

Laird Reveals **Plans to Leave** Cabinet in 1973

MADISON, Wis., April 25 (UPI).-Defense Secretary Melvin R. Laird has informed the University of Wisconsin Daily Cardinal in a copyrighted interview that he will leave his cabinet post in 1973.

In Friday's edition of the student newspaper, Mr. Laird told Peter Greenberg, Cardinal reporter, that "four years as defense secretary is lnng cnough. I'm not interested in being secretary of defense another four years.'

The interview was conducted Thursday in Mr. Laird's Penta-gon office. Julian Levine, a Defense Department public affairs official, who was present during part of the interview, confirmed that Mr. Laird planned to retire as secretary in 1973.

12 Arrested in Dublin DUBLIN, April 25 (AP) .---Twelve persons were arrested for disorderly conduct yesterday during an anti-Vietnam war demonstration in front of the U.S. Embassy. An American flag was burned and blood was sprinkled on the eteps. The protest involved several

hundred demonstrators.

5,000 in Danish Protest COPENHAGEN, April 25 (UPI). -Despite near-freezing weather, about 5,000 Danes today protested the Vietnam war with a four-hour march around Copenhagen. They then hald a rally outside the U.S. Embassy, which was guarded by 300 policemen with 400 more in reserve around the

corner. There were no incidents. 75 Protest in Beirgt BEIRUT, April 25 (UPI1-

others of conducting largegambling operations in New York and on Long Island, involving horse racing and other sports as well as numbers.

Nixon Appoints Woman Recruiter

WASHINGTON, April 25 (Reutcrs1.-President Nixon has given to Mrs. Barbara Hackman Franklin, a 31-year-old executive of the First National City Bank of New York, the job of finding sultable women to fill top positions in the U.S. government.

Mrs. Franklin, of Lancaster Pa., was one of the first women to receive a degree from the Harvard Graduate School of Business Administration, in 1964. She became an assistant vicepresident of the First National City Bank last year.

White House Lawn to Be Pasture For Nixon's Salute to Farmers

WASHINGTON, April 25 (NYT) -President Nixon plans to stage a miniature county fair at the White House May 7, with cattle, hogs, sheep and a host of farm exhibits, as a salute to American agriculture.

The administration, looking ahead to the presidential election of 1972 and the sometimes crucial farm vote, has invited 60 agricultural leaders, individual dirt farmers and their wives, and a group of rural youth to the White House to hear of administration policies and plans to help farmers and rural America.

The event will take place on the White Bouse lawn. The livestock will come from the Department of Agriculture's research center at nearby Beltsville, Md. Farm machinery will be brought in and tagged with prices to demonstrate the cost of modern farming, the technology of planting and harvesting and the efficiency and productivity of American farmers.

Besides the President himself, the farm fair hosts will include Clifford M. Hardin, Secretary of Agriculture: Henry A. Kissinger, special assistant to the President for national security affairs, and John N. Mitchell, Attorney General, President and Mrs. Nixon will be the hosts for a White House dinner and program in the evening.

physics. It was subsequently shown that

the nucleus itself has structure, being formed of clustered neutrons and protons. Now it appears that even those "elementary" par-ticles have some sort of internal components.

While follow-np experiments are under way in laboratories throughout the world, the initial observation of such internal structure was made at Stanford. The two-mile accelerator there produces by far the most powerful electron beam in the world. When the electrons hit their

Senate Bill Would Curb Election Spending

By Warren Weaver Jr. WASHINGTON, April 25 (NYT1.-Legislation that would limit the 1972 presidential candidates to spending \$13.9 million each on radio, television, newspapers, magazines and hillboards was approved unanimously Fri-day by the Senate Commerce Committee.

Only half of that limit, or about \$7 million, could be spent on radio and television by the two nominees on the national ticket of each party. In 1968 the Republican ticket spent \$12.7

and the Democrats \$6.1 million. The legislation would also impose spending limits for the five communications media, but no others, on all Senate and House candidates. All limits would be based on a formula allowing a maximum of 10 cents for each eligible voter, with no more than 5 cents of it to go for radio and television, but with a minimum

ceiling of \$60,000. President Nixon vetoed last October a bill that would have limited only radio and television

Ex-Assistant Secretary of State Rogers, 88

DENVER, April 25 (NYT),--James G. Rogers, 88, an assistant secretary of state under President Herbert Hoover who had also been an educator, a poet, a lawyer, a naturalist and a leading citizen of Colorado, died Friday.

Mr. Rogers served in the State Department from 1931 to 1933. He handled for Secretary Henry L. Stimson negotiations with Canada for a treaty to develop the St. Lawrence Seaway.

He acted as liaison between the Hoover and Roosevelt administrations, staying on in Washington a year into President Franklin D. Roosevett's term to advise him on the critical economic situation.

Mr. Rogers was born in Denver and graduated from Yale in 1905 and Denver University Law School in 1908. He was a re-porter on the New York Sun in 1905-06.

Mr. Rogers served as assistant attorney general of Colorado in 1909-10 and practiced law in Denver until 1928.

He was dean of Denver University's Law School in 1927, dean of law at the University of Colorado from 1928 to 1935, and master of Timothy Dwight College and professor of law at Yale from 1935 to 1942.

During World War II he was deputy director of the Office of Strategic Services and chairman of the Strategic Planning Group.

Mr. Logers was a member with the rank of minister, of the Allied Electoral Mission to Greece in 1946 and a member of the foreign affairs section of the Hoover Commission on Organization of the Executive Branch of the Government in 1948.

In the 1950s he was president chairman of the Foreign and Bondholders Protective Council, which rehabilitated more than s1 billion worth of defaulted foreign-government bonds, Mr. Rogers, with Kenneth M. Spang, negotiated a settlement of the German debt in London in 1952. In his youth Mr. Rogers wrote books of verse and later he wrote volumes on legal themes. He also wrote the songs "Dolores" and "Santa Fe Trail."

LONDON, April 25 (NYT) .--Marshal of the Royal Air Force Viscount Portal of Hungerford, 77, who as chief of the air staff played a major role in the shaping of Air Force policy during World War II, died Thursday at his home in Chichester, Sussex. Charles Frederick Algernon Portal was born at Hungerford, Berkshire, and educated at Winchester and Christ Church, Ox-

ford. His air force career hegan in 1915. He served in the Royal Flying Corps as an observer, and later as a pilot. He was twice awarded the Distinguished Service Order, once for shooting

down enemy aircraft, and was promoted to the rank of colonel at the age of 25. From 1937, he was director of organization at the Air Ministry.

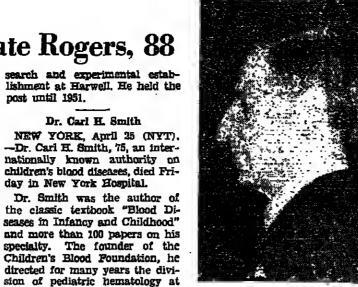

and immediately prior to World War II he filled the key post of air member for personnel during Britain's concentrated drive to huild un the strength of its air force.

In 1940, at the age of 47, Lord Portal was appointed chief of the air staff. He held the post for the remainder of the war, and his period of office saw a massive expansion of the power of the Royal Air Force and the continuous growth of the air offensive against Germany.

He was made a baron in 1945. shortly before he relinquished his post as chief of the air staff.

LONDON, April 25 (NYT) .--Former Prime Minister Harold Macmillan said Friday night that President Eisenhower, at the end of his first term, "had really surrendered all power" to Secretary of State John Foster Dulles. He cited Mr. Dulles himself as the source of that view. He said Mr. Dulles told him in 1956 not to bother about what the President sald-"I write what

that there is disagreement between Israel and the United States about the tactics of the delicate diplomacy under way. But officials here minimized its significance.

A potentially significant nuance seems to have supped into the Israell position as it is discussed, a genuer interpretation of a longstanding Israeli condition that might make it easier for Egypt to accept.

This involves the requirement that Egypt accept an "and to belligerency" as one of the conditions for an Israell pullback from the canal's eastern bank to permit the waterway to be cleared and operated. The Suez Canal has been closed to shipping by the Egyptian authorities ever since Israeli occupation forces reached the east. or Sinai, bank in the six-day war.

Por the last 22 years, over since Israel became a state, Egypt and Israel have been in a technical state of beiligereocy. To end this state of belligerency. therefore, might involve overthrowing habits of ideology and vested interests among policy makers in the Arab world that loom more weightly than any practical consequences.

of fighting" across the canal if the Israell forces pull back far enough to allow operations to This is a more practical statement of Israel's immediate in-

On many occasions in Middle East diplomacy over the last three years. U.S. officials have taken the lead in talks with Israelis in asking whether the wording, or the reality, was the dominant consideration.

It might, therefore, be possible for Mr. Rogers and his aldes 10 evolve a formula by which the Arab states could maintain that their "belligerency" with Israel remained firm, while at the same time joining in assurance:, guarantees and arraugements that would insure that fighting across a re-opened Suez Canal would be a near impossibility.

Security Demands From the Israeli viewpoint, the formula about not resuming the fighting is said also to include the concrete security arrangements they are demanding from the United States.

operation in the eastern Mediter-In the papers handed to U.S. ranean basin bas rested on two Ambassador Walworth Barbour by assumptions, the first being that Premier Golda Meir on Monday. the fleet's Phantoms are superior one Israeli condition was that to any planes possessed by the Russians or their alles in the Middle East. Egyptian or Soviet forces must not be authorized to cross the Suez Canal in the wake of an Israeli withdrawal. Egyptian President Anwar Sadat has demanded that right as part of the agreement for opening the canal. The United States is believed to side with Israel on this issue. But the problem for the diplomats is to find a method by which the opposing positions of the two sides can be reconciled. They are seerching for a means of letting the Egyptians feel satisfied that their forces have asserted sovereignty nn the Sinai bank, while letting the Israelis feel satisfied that there is nn increased danger that the fighting will be resumed.

Russian Note Protests on U.S. 'Terror'

N.Y. Bombing Called Part of a Campaign

ed to the United States vesterday over an "organized campaign of terror" against Russians in America and warned that the U.S. government would be responsible for the consequences if it wasn't stopped.

The Soviet protest, spurred by a bombing at the Sovlet trade agency in New York Thursday, was contained in a note handed to U.S. Ambassador Jacob Beam by First Deputy Foreign Minister Vasily Kuznelson.

Tass, the official news agency, published a summary of the oote last night.

The norms of international behavior, the note said, obligate itost governments to guarantee normal cooditions for the functioning of visiting foreign diplomatic and other delegations as well as to assure their safety. "The failure to observe" this principle, the Soviet note said, "cannot otherwise be regarded than the reluctance of one state to maintain normal relations with the other state."

Recalling the Jewish Defense League's campaign of harassment of Soviet citizens working in the Uoned States, the note said the "fascist-mongering Zionists" had most recently "exploded a bomb in the New York premises of

Amtorg" the trade agency. "It is clear." the protest declared, "that there is an organized campaign of terror and violence against Soviet institutions and citizens in the United States."

The Societ government insisted that the United States take steps to curb the altacks and said. "All the responsibility for the present situatioo and its possible consequences rests with the governoicht of the United States."

Moscow Bomb Scare

MOSCOW, April 25 (AP). An unidentified caller told a U.S. Embassy officer Friday night that there was a bomb in the embassy building, but a check by Marine Corps guards turned up no bomb, the embassy said yesterday.

A spokesman said that about 'half a dozen" embassy officers received telephone calls at their homes from unidentified persons. He sald the calls were of a harassing nature" and that one of the callers said there was a bomb in the embassy building.

If you do business around the world, don't miss the boat.

If you do business overseas, you'll find us almost anywhere you go. We're opening a new branch in Paris to go along with our branch in London. And we've added to our internetional network of representative offices with new openings in Djakarta, Singapore and Sydney. We'll give you assistance with both local

currency and Eurodollar financing. Facts on local taxes, labor, costs. Introductions to local government officials. Credit information. Or whatever kind of help you need. Wherever you need it. Make sure your overseas business doesn't miss the boat.

Golan Heights Duel

TEL AVIV. April 25 (UPD .--Israeli troops and Syrian-based guerrillas fought a 15-minute mortar duel ocross the Golan Heights cease-fire line last night, military sources said today.

And the Israeli military command announced that an army officer wounded in a mine eaplosion Tuesday in the Judean hills southwest of Jerusalem has died nf his wounds, raising to four the number of officers killed in the incident.

Overflight Protested

TEL AVIV, April 25 (UPI). Israel complained to the UN truce supervision authorities that two Egyptian Sukhoi-7 fighterbombers flew over its positions along the Suez Canal today. It was the third such overflight reported since the end of the official cease-fire March 7.

Sterner to Israel

TEL AVIV. April 25 (UPI) .-A U.S. State Department official who recently had talks with President Sadat of Egypt is arriving here today.

Diplomatic sourcea described Michael Sterner'a visit to Israel as "unofficial." A guest of the U.S. Embassy in Tel Aviv. Mr. Sterner will, hnwever, meet Israeli nfficials for "private" talks nn the Mideast conflict, they said.

Thant, Jarring To Meet Today

BERN, April 25 (UPI).--U Thant, secretary-general of the United Nations, arived today in Bern to attend a meeting tomorrow of the UN coordination committee, which oversees relations aming the various UN organiza-

tions. According to officials of the UN secretariat in Geneva, the most important part of Mr. Thant's trip will be discussions there with Gunnar Jarring, the UN special mediator in the Middle East conflict.

The other assumption has been that the Sixth Allied Tactical Air Force of the North Atlantic Treaty Organization, stationed in Turkey, would be strong enough. in conjunction with the planes of the Sixth Flect, to protect

to Egypt.

NATO or friendly shipping in the eastern basin from air or sea attack. Both assumptions are now believed to have been challenged by the introduction of the new

Soviet planes and by the development in Egypt of radar warning and guidance systems to support Soviet air operations. Two squadrans of Soviet Tu-16 medium bombers are also believed to have been stationed in Egypt.

21s have been added to the force

There was no official confirmation from Amman of the travelcrs' reports, though the reports were brought back by responsible well-placed persons. They and said that Mr. Hai Amin had been asked to return to Amman to live In King Hussein's palace and bear the title "special adviser to the king on politics."

Some Palestinians here argued that this could not be true, since the Muftl had been linked with the conspirators who assassinated King Hussein's grandfather, King Abduliah, in Jerusalem in 1951. To others arguing in the coffeehouses of the West Bank, however, li could be a clever move on King Hussein's part to discredit the present-day guerrilla leader. Yassir Arafat-to draw nn the distant memories of a former leader to make the current lead-

er seem pale by comparison. It has also been suggested that the reports were deliberate plants to discredit King Hussein among those Palestinians who remember

the Multi with bitterness and to enhance the king's position

Park Promises He Won't Seek

4th Term in '75

SEOUL, April 25 (AP1 .- South Korcan President Chung Hee Park promised a crowd of about 400,000 people here today that he will not a seek a fourth consecutive term in 1975.

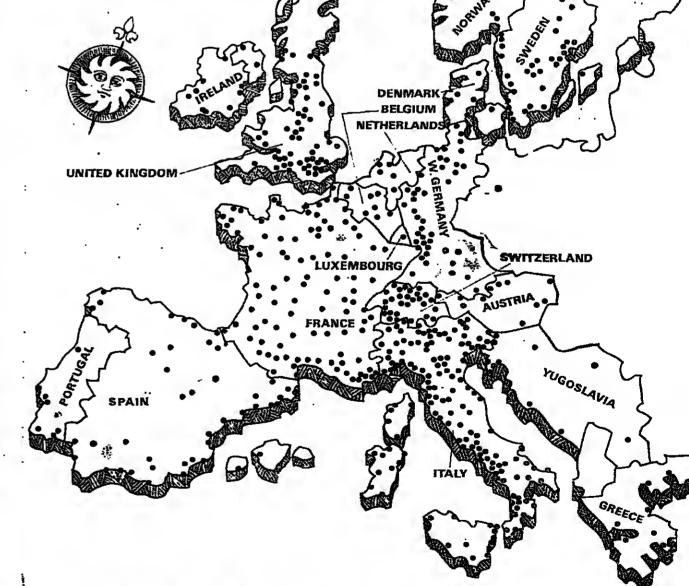

In delivering his final campaign speech for Tuesday's presidential election, Mr. Park said he seeks only one more four-year term to complete his major task of wiping out government corruption.

He denied an opposition accusation that he and his Democratic party are scheming to remain in power for good through a generalissimo system if he wins the election.

The huge crowd in Changehung Park remained relatively impassive, political reporters agreed. It was the same site where the opposition New Democratic par-ty's candidate, Kim Dae Jung, drew an estimated half-million persons to a campaign speech last Sunday.

50,000 See 3 Die

LAGOS, April 25 (Reuters) .-Three men convicted of armed robbery were shot here yesterday in the first-over public execution watched by a jostling crowd of 50,000. The executions by firing sound were carried out on sundrenched Bar Beach, a favored weekend pleasure spot, while small traders did a brisk business setting soft drinks and ice cream.

In the Antarctic, the Visitors

Are Giving the Admiral Fits

WHICH WAY TO THE SOUTH POLE?-"The tourists are coming to Antarctica In surprising numbers and it is true that they sometimes get into difficulties and call on the Navy for help."

The South Pole as a Tourist Attraction

By P.J. Laine MCMURDO STATION. Antarctica.—Rear Adm. David P. Weich, the gruff and blunt commander of the United States naval station here at the hottom of the world, doesn't like tourists -at least, not those who have the gail (or spirit of adventure, depending on how you see it) wa nt continent the size of Mexico and the United States combined. It got to the point last summerthe antarctic summer has just ended and winter darkness has descended until August-that the admiral was quoted in a New Zealand newspaper headline as having said. "Tourists give me fits." Adm. Welch disputes the wording of that quote, but vigorously proclaims that the Navy has better things to do than chaperone tourists in "the most unforgiving place I have evar seen," The tourists are indeed coming in here in surprising numbers, and it is true that they necasionally get into difficulty and call on the Navy for help. Still, nobody owns this vast ice shelf-16 nations including the United States and the U.S.S.R. have signed a treaty recognizing Antarctica as a no-man's-land and barring all military activity here-and tourists, accordingly, have, or ought to have, at least some rights. One can imagine this sort of dispute arising 50 years from now on the moon.

too soft to accommodate safely a got trapped in the ice. Navy had to pull it free. U.S. Sky Marshals' Credo: 'Shoot First'

By Bill Terry

AMERIC/

Pol

ANTARCTICA

Ocean

AUSTRALIA

WASHINGTON (WP) .-- About 1,000 unidentified sky marshals, trained here at Ft. Belvoir, are now flying the commercial routes armed with .38-caliber Distols. If a plane hijacker makes his

intentions clear and is armed, the marshals are prepared to fatally shoot him without warning or question. Fortunately there have been no

shoot-outs on any American hijacked planes—and in the London plane recently hijacked, the hijacker was unarmed and was arrested peaceably.

The American sky marshals now in service (including four women) are post-graduates of the Ft. Belvoir training center, and are officially called Customs Security Officers. They work in teams.

Officials at Ft. Belvoir note that most of the 107 hijackings of the past ten years were the work of fanatics, but were not less dangerous to passengers for that

The sky marshals are not armed with Mace or other chemical weapons to incapacitate a hijacker. Instead they are trained to shoot to kill with hollow-nored bullets that shatter upon impact. To qualify the marshals must he able to discharge 12 bullets in 25 seconds and all shots must be accurate enough to hit and kill a man at 45 feet. .If one of the bullets should

miss the target and go through the wall of the plane, an explosive decompression would occur authorities said, causing the plane to crash. That is one reason the marshals are trained to kill an armed and threatening hijacker witbout any ifs, ands or huts.

The marshals are known only to the crew and are assigned to various sections or compartments of the planc and function inde-pendently of each other except in case of trouble,

There is no regular. pre-re-hearsed or in-flight plau for these officers to put into action during a hijacking. It all depends on the situation.

The only pre-arranged aspect is a set of hand signals worked out by the team that resembles those of a third-base coach in a baseball game. There is no verbal communication between the marshals.

A pre-flight briefing, however, is held between the airliner captain and crew and the marshals during which any problems (such as the presence of a known underworld figure aboard) are discuss-

The "super-vel" slug (for velocity) is designed to explode and kill when striking anywhere near a vulnerable area of the body. Sky marshals also carry a set

Zhivkov and Brezhnev Arm in Arm **Shiny Sofia Shows Off Loyalty**

to formally link its foreign policy to the Boviet

Union's. And the new five-year development plan calls for further integration of the Bulgarian economy with that of the Soviet Union, a process that is already well under way. This will mean more specialization by Bulgarian industry. Bulgaria, for example, is producing batheries for Fiat cara built in the Soviet Union, and taking payment in the form of Flats for the Bulgarian market

Meanwhile, Moscow is said to be building o of its largest new embassies in the world bere and to be preparing to pour 350 million rules (\$385 million) in credits into Bulgaria in the next five years. Western diplomats also say that Bulgaria is

receiving highly advanced military equipment for its army, though one diplomat said it "probably was not quite as advanced as what is on the west bank of the Suez Cabal," a reference to Soviet aid to Egypt.

The visit of Brezhnev to Sofia for the party congress indicated the sincerity of the Soviet commitment to Bulgaria.

In the ideological and cultural sphere. Western analysis believe that Bulgaria is a useful Soviet proving ground for ideas that could be tried later in the Soviet Union. The new economic mechanism" introduced on Jan 1, for instance, contains important, innovations such as the creation of giant farm conglomerates which are to be run on industrial lines and which eventually will eliminate differences between factory and farm labor. In some respects, the Bulgarian economy, which continues to be centrally plan-ned, rigid and resistant to any revisionist thinking, seems an orthodox alternative to the liberal, decentralizing reforms that have been winning respect all over Eastern Europe for the Hungarians.

A strong Bulgaria, said one diplomat, is also valuable to the Soviets as a potential "cat's paw" in the Balkans-the main Soviet ally and strategic bastion in an area, where neighboring countries run the political spectrum from pro-Chinese Albania to military-ruled Greece.

For this reason, it does not surprise observers here that Bulgaria has begun to take the initiative for a Balkan-wide, security arrangement. This would fit well into the Soviet Union's drive would ce: and also form links and extend Soviet-bloc interests to countries outside the Warsaw Fact in southeast Europe. Meanwhile, daily life is not all drab in Sofia. The new and tastefully hild out city parks are full of promenading people, and the cafes are crowded. The rooftop restaurant and par of the Hotel Henus attracts young Eulgarians at night who look out at a brightly lighted city that no ionger qualifies as "the big village," as it once was called.

Modern means of transportation, lightweight survival clothing and equipment and even the enterprise of one adventurous travel agent lately have brought Antarctica within reach of a good many adventurers. Lindblad Inc., has cruised the Travel. Pinnish-built luxury icebreaker Lindblad Explorer on two voyages to Antarctica, carrying 65 passengers and a crew of 60.

There is enormons tourist interest in the Antarctic, if for no other reason than that visitors can now see what they once only read about in books," reports a spokesman for the agency. Next year. Mr. Lindblad plans no fewer than three cruises here. Other visitors have come in private planes, and still others have been intrigued by the possibility of extensive exploration of the lce shelf in snowmobiles.

Indeed, the Navy has been approached by a Kansas City construction man seeking information about the Antarctic because he says he plans to build a Holiday Inn here. Tha motel chain, however, says it has no official plans for any such project -not for the time being, anyway. From South America have come queries about air service to Antarctica, and there has also been some rather far-out talk about establishing a "University of the Antarctic' somewhere on this frozen vastness.

Problems with tourists began tic summer weather (during here for the U.S. Navy three years which the temperature soared ago when a pioneer Lindblad from minus 100 up into the low polar cruise ship, Magga Dan, 40s) had made the ice runway

.

Slept at North Pole

Mr. Pederson also asserted that he was no antarctic picnicker. "I certainly ought to know (the dangers)," he said. "I once slept in a tent with no heat in minus-65-degree weather on the North He added that he could Pole." not understand why Adm. Welch bad told him by radio that he knew nothing of his plans until he had arrived in New Zealand. Before leaving the United States. the Minnesota explorer explained, he and his crew had had a personal interview with President Nixon during which the President gave them a flag to carry to the Sonth Pole and also declared that he was certainly "proud that some of the early American pioneering

spirit is still alive today." An indomitably cheerful man, Mr. Pederson said, You know, we failed our first year on the North Pole expedition, too." But he expressed confidence that next year he will succeed in becoming "the first man to get to both ends of the earth by surface travel" For his expedition next

season, Mr Federson says, he will file more complete plans for his trip with the Navy. These plans will call for spending a weck here at McMurdo, taking 25 days for the snowmobile trip to the

a

cient, and their members will comply with all the Antarctic Treaty agreements concerning conservation and preservation of the antarctic continent."

Continuing Study

The Navy came down to Antarctica to stay in 1957 for the start of the International Geophysical Year. Its mission then was to provide support for sclentific expeditions on this ice shelf. Since simost all of the supplies brought here are transported by ship, the Navy was the logical choice for the job. At present, some 175 researchers for the National Science Foundation (the number falls to 22 in the Antarctican winter) are continuing the study of this once living continent now crushed beneath seven cubic miles of ice. And so the Navy's support unit, called Operation Deep Freeze and numberling 2.500 men in the summer but only 190 in the winter, remains too. The Soviet Union also maintains six nonmilltary bases on the continent.

McMurdo Station is perhaps the most unusual tourist port of call in the world. The first eztraordinary sight to greet the visitor is an active volcano, Mount Erebus, which dominatas this island and, incredibly, trails white smoke from its 12,400-foot icy cone. When the sun goes down in April, a rosy glow from Mount Erebus relieves the desolation fc : the winter personnel who remain behind, cut off from the world except by radio. The tourists miss this, of course, since the summer sun never even dips near the borizon. It often edges the temperature above the freezing mark and makes a mush of McMurdo's cinder-strewn streets. McMurdo is a but city situated

on the ice atop Ross Island. which is only a short distance from the continental ice mass. The permanent ice shelf ends here at the Ross Sea, but most of the year there is no visible break, because the sea too is frozen over, so thickly in fact that planes land on it. But in mid-January, sometimes

overnight, the ice in McMurdo Sound, an inlet to the west of Ross Island, breaks away and floats north, leaving 80 miles of open water-unbroken except for whale spouts-between Mc-Murdo and the Prince Albert Mountains to the west.

P. J. Laine is the news editor of the Washington bureau of Knlght Newspapers. The orticle oppeared originally in The New York Times.

centrates largely on target practice. Many marshals are former police officers or government agents. Most are in their 20s or 30s.

The training includes a course in judo and agents are skilled in the use of a knife and handto-hand fighting with fists.

The course includes what is called "putting out a line" of talk or a cover story the marshal is prepared to use in talking with fellow passengers to mask his identity. These stories vary and include a hometown story, an occupation, destination and reason for traveling. Occupations are usually generalized and not particularly interesting, in order to reduce curiosity. "We keep it simple." one said.

The marshals are told to keep to themselves. They are not allowed to sleep (even rest), drink or watch movies. They are most often conservatively dressed, though this is not mandatory. Age limits on male sky marshals are 21 to 50; for women, 21 to 30.

partiy historical and romantic, partly a product of self-interest, cannot therefore be dismissed as pure servility. Soviet leader Leonid Brezhnev bimself last week described Bulgaria as "sovereign."

But peace and rising prosperity are the rewards for what some Western diplomats feel is increasing Soviet predominance in all spheres of life. a phenomenon which they say has become more accented since the 1968 invasion of Czechoslovakia and the Soviet buildup in the Mediterranean.

"The Bulgarian Communist party and the Bulgarian people need Bulgarian-Soviet friendship the way all living things need sun and air." party leader Todor Zhivhov told the congress delegates last week. "Friendship Forever," proclaim huge signs displayed throughout the Bulgarian capital. On the Lenin Boulevard a giant red drape shows Zhivkov and Brezhney striding arm in arm.

No personality cult surrounds Zhivkov, as it does (for quite different reasons) President Tito of Yugoslavia or Walter Ulbricht of Bast Germany. Instead there is the cult of friendship with the Sovict Unico.

All last week awed schoolchildren filed through the Museum of the Revolution, which traces ths history of the Bulgarian Communist party from its founding in 1891, and, incidentally, outlines its close bonds to the Russian Bolsheviks.

According to Western diplomats, the proposed Bulgarian constitution, to be adopted later this year by referendum, is the first in Eastern Europe

Yet the rigidity of the regime gives lifa an orthodox hne. Guests at the Hemus must pass muster by the doorman, for instance, and oc-casionally Western guests are challenged for their identification.

The main artistic attraction in town during the party congress was an exhibition of Bulgarian socialist realist painting, where the emphasis is on steel workers, chemical plants and life on collective farms. The only relief from the genre is a rather freely rendered portrait of American radical Angela Davis by artist Vladimir Ganecovski.

Despite the influx of hundreds of thousands of. Western European tourists each summer, Bulgarians' contact with foreigners is sharply limited. An American diplomet last week threw a cocktail party to which 24 Bulgarian journalists were invited. None showed up.

How Israel Dealt With Its Own 'My Lai'

By Robert C. Toth WASHINGTON-Israel had a My Lai-type massacre in

1956, and the trials that followed it represented the first time an unvanquished democracy prosecuted and convicted its own military for mass murder of unwounded. armed civilians.

The slaughter of 43 Israell Arabs-men, women and children -at the village of Kfar Kasim offers a useful precedent in considering the crime and the punishment of My Lai.

It happened on the first day of the Sinai war, Oct. 29, 1956, when Israeli forces struck out toward the Suez Canal and hlt at fedayeen terrorists across the Jordanian border.

A 5 p.m.-to-6 a.m. curfew was imposed on border Arab villages like Kfar Kasim, with orders to frontler police (from their army commandants) to enforce it strictly and shoot violators. Villagers left for their fields

or work in nearby Tel Aviv before the curfew was announced. They were "coming home in all innocence." as Premier David Ben-Gurion later said, after the deadline, when the police units potted them,

The police battallon commander. Maj. Shmuel Malinki, radioed the army regional chief. Col. Issachar Shadmi, for instructions on what to do with the Arabs. "May Allah have mercy on their souls," the colonel replied equivocally. Forty-three Arabs were mur-

dered without warning and "in cold blood." the court-martial later found, and another 14 Of the original 11, three were

Two days later the Israeli government began an investigation. Six weeks later Ben-Gurion disclosed the massacre to parliament. announced that compensation had been paid, and promised court-martials against 11 Israelis-later 12-accused of having given or obeyed "an illegal order."

The My Lal incident in Vietnam took two years to surface, and some U.S. officers have been accused of covering it np. Kfar Kasim occurred within Israel, however, not 9,000 miles away. It is doubtful Israel could have hushed up the matter even if it tried, but in any event it acted with alacrity.

About \$224,000 was paid to at the scene, although he apheirs of the victims. The amount was set by a committee of two Arabs and two Jews chosen by the mayor of a neighboring Jewish village which had long en-joyed good relations with Kfar the eight had initiated the illt, all-including the enlisted men Kasim. The Arab clders of Kfar Kasim agreed to accept the committee's judgment, but some bereaved familles accepted the major's contention reportedly wanted more money.

much of that mystery was con-trived, for Dr. Duvalier was a rural and agricultural and their

How the modern world's most ucrative colony became a nation 167 years ago continues to mat-ter; and the Haitian people still pay dearly for the courage of their ancestors. The 1791-1804 revolution that freed the slaves, destroyed the plantation system and made possible one of the hemisphere's few peasant societies, terrified every slaveholder in the Americas.

The United States had just become independent, its flourishing industry and slave economy intact, when Haitl began its separate career ravaged by war, nearly half its population dead or in exile, and almost wbolly lacking in technical and organizational resources. Moreover, it was a country of free blacks in the midst of slave empires, when such freedom was unthinkable. During a century of substantial isolation, the masses became small freeholders, dominated by tiny commercial and military minorities in the rowns. Not until the United States occupation from 1915-1934 did Haiti emerge from that isolation.

interest might express itself, and the fact that the peasantry is not ed maintain peasant powerlessne in the foce of the state apparatus, however feeble. State power has commonly flowed from one group of families to another and there has been little change in that tra-ditional distribution of wealth nd privilege, which the North

Americans embraced and strengthened. President Duvalier capitalized on a nationalist ideology that had grown during the North American occupation. In stressing the Creole language, folk religion and blackness, he touched upon the unexpressed values of many country folk. He consciously employ-ed the peasantry in political demonstrations that gave them an illusion of power. And in his fencing with the church and the business community, he appeared to confirm the principles he proclaimed. It would be ludicrous to claim that "the people" were for Dr. Duvalier; yet his tyranny was not experienced in the same way by all sectors of the society.

it weakened the regional distribution of political power, inflated the bureaucracy, and sped up the esteblishment of foreign enterprise, did not radically change the structure of Haitian society. Duvalier came to power, the nation endured a succession of presidents, similar mainly in their inability to alter significantly the character of Haiti's economy, or

tions against Cuba and the offer of a naval base to the United States. In his own way, the late president was as radical as he could be; but he was no Castro.

Page 7

Haiti's national structure, in short, has stayed much the same these last 14 years. The peasantry remains unchanged; and if the towns and cities are in ntter decay, it is not the peasantry that notices.

Most important, perhaps, has been the attrition by emigration of a sizable portion of Haiti's professional talent. Emigration homogeneous mass, have helpand exile are old traditions, but for Halti they may well be an irreversible process-and lossgiven the length of the Duvalier regime.

And what of tomorrow? The question is not whether the Duvalier dynasty, in the person of Jean-Claude, will or will not coutinue-but whether the skein of power created by "Ti-Doc" can last. The Duvaller-created structure has added the dimensions of terror, color, and a Praetorian guard; but as long as the pensants, four out of every five Haltians, remain politically dormant, Haiti's national structure is not likely to change significantly. The very inefficiency of the exploitation of the peasantry plays some part in their political stolidity, and no one knows how that might change.

What will not change, to be sure, is the lively interest of the United States, apparently as de-He tapped every class in building voted as ever to regional "stabilihis political and paramilitary maty." Both Peking and Taipel claim to be the legitimate government of all China; both say they will not share a UN role; both can be taken at their word.

The controlling fact today, and presumably it will still be true next fall, is that the momentum ls all away from Taipei and toward Peking. Ping-pong diplo-macy surely adds to that fact.

More Switches Coming

As of today 63 nations have diplomatic relations with Taipei and 53 with Peking. But since last October there have been eight switches in these ties, all from Taipei to Peking: Canada, Equatorial Guinea, Italy, Ethiopia, Chile, Nigeria, Kuwait and Cameroon. It is estimated in Washington that between now and voting time next fall five or six more switches are likely. Austria, which has relations with neither China, currently is negotiating with Peking. Lost fall the General Assembly

for the first time had a majority for accepting the credentials of Peking and rejecting those of Taipel 51 to 49, and it is obvious now that the roll call this year will fatten that majority.

Today there is a growing bellef Washington that when roll īn call time arrives Chiang's representatives at the UN will know In advance how a vote would go. The choice of action would be np to Chlang himself.

The aging generalissimo, now 83, is said to have told intimates that he has no high regard for the world organization and certainly would not suffer tha "humiliation" of being thrown out. This and other remarks by Chinese diplomats clearly forecast to many that if he knows he will be outvoted and evicted, Chiang will order his representative to gather up his papers and walk out before the vote is taken.

If this should occur, tha General Assembly problem would be resolved. But what about the Security Council? Thus far the voting for over a

decade on Chinese representation has been exclusively a General Assembly matter and the assembly is the judge of who can sit there as long as it is simply

entry it probably would lose on a point of order, given the makethis year of the Security Council membership. To run the risk of such a defeat would be politically inent, many feel, if the mood of Peking-Washington relations is improving and if acceptance by the General Assembly already is a fact, either this fall or in 1973. Of course all of these complexities probably would disap-

pear st the Security Council table should Chiang, facing defeat first, in the Assembly, have his man walk out of the council as well. Such a move would case Mr. Nixon's burden, too.

other, in effect, os the success

Matsu, which he also holds,

More Curbs Lifted

Mr. Nixon shortly will issue a new and eased trade-restriction list. Sen. Charles McC. Mathias, R., Md., is preparing to rein-troduce his measure that would repeal the 1955 Pormosa Resolution. That gave President Elsenhower and his successors authority to use American forces to protect Formosa and the adjacent Pescadores and at presidential

discretion, to protect the offshore islands of Quemoy and Matsu. The repeal passed the Senate last year as part of a package but in the end Congress repealed only the Gulf of Tonkin Resolution. The administration has said it has no objection to repeal of the Pormosa Resolution.

On Peking's side, the most im-portant move would be the release of one or more of the four Amerlcans held there. a point now being made by American officials

The four are Navy Lt. Robert Flynn, who landed his plane lл China after a bombing run over North Vietnam; Maj. Philip E. Smith, whose plane landed or Hainan Island: John T. Downey, and Richard G. Pecteau, civillans. The two pllots have never been tried or sentenced or indeed formally charged as far as is known

here. Downey and Fecteau charged by Peking with being "special agents" of tha CIA engaged in dropping supplies to "American espionage agents in Northeast China" in 1953, during the Korean war, when they were captured. Downey was sentenced to life imprisonment and Fecteau to 20 years, in November, 1954. The United States maintained they were civilian employees of the Army whose plane was lost en route from Korea to Japan. Others captured with them were sentenced, jalled, served their terms and were released.

Of course it is some time till the UN General Assembly meets and the evolution of Sino-American relations will go on long after it does meet, whatever that outcor

Impatience for Peace

The usual numbers game is being played largely self-elected, would bring about a over the turnout of marchers in the war protest demonstrations in Washington and San Francisco, and the usual discussion of just how representative these marchers may be. But it can be assumed that the marches themselves were extremely impressive, and that they do show forth an impatience over the pace of American disengagement from Vletnam.

As to the desirability of disengagement. there is no doubt at all about the unlversality of sentiment. Those who want to stay and fight it out are minuscule in numbers, and have no official or prestigious apokesmen at all. The only serious division comes over the permissible cost of extricating American troops from Southeast Aeia.

This may be disputed by some of those who think in terme of a military-industrial complex, conspiring to use up men and material for their own aggrandizement and profit. But if euch a conspiracy exists, it is far less powerful than the politico-economic complex that wants the war ended, that helieves the human strains and the wastage of resources involved in a continuance of the fighting constitute a far greater threat than the dislocations that might be involved for some industries if American priorities were re-ordered.

Why, then, does Mr. Nixon delay in setting a date for complete withdrawal? He has made much of two points: One, that the abandonment of the South Vietnamese would entail great fears and ricks for the non-Communist world as a whole, and for America's allies in particular; two. that American reaction to a defeat, even one

dangerous reaction at home.

The first is obviously serious. Those portions of the Pacific hasin affected by the threat of a Communist take-nver. whether one describes this as a domino theory or not. would be very clearly alarmed by an American withdrawal from South Vietnam which left that country open to the other side. Even European countries which are dubious or actively hostile to the Vietnam involvement might well be alarmed if It ended in another Czechoslovakia.

That risk is real enough. As for the other. It would seem that Mr. Nixon in thinking of something resembling the reaction to the loss of China-the charges of "sell-out." The mobilization of another Committee of One Million, the injection of the issue into domestic affairs and the revival of Mc-Carthyism. This prospect, however, seems remote. The world has changed remarkably eince the 1950s, and America has changed with it. The costly Korean war was charged. by many Americans. to "softness on Communism" in hight places, and to the loss of China. It is hard to detect any elsments of this mood in America today-quite the contrary.

Mr. Nixon must accept as a fact, therefore, that to extricate the United States from Vietnam on the lines he is presently pursuing may honor American commitments to Saigon, and may reassure nations threatened by Communism. But he will not, unless his success is greater and comes more speedily than now seems possible, placate the American people, nor avert the continuance of deep domestic concern and the growth of anti-administration, anti-military and even anti-political sentiment at home.

ONTI MAUDIN

"We Paid for This Highway and We've Got a Right to Enjoy It."

The Wolf That Hasn't Come

By C. L. Sulzberger

Detention Camps

It is not generally known to Americans that they bave on their statute books a law authorizing the establishment of concentration camps in the United States. They are not called concentration camps, of course: they are referred to euphemistically as "detention centers," concentration camps being repugnant to all Americans as a symhol of totalitarianism. Nevertheless Title II of the Internal Security Act of 1950-that hangover from the hysteria of McCarthyism -authorizes the President to declare, under certain circumstances, an "internal security emergency " Once such a declaration has been made, the President, acting through his attorney general, may, in the words of the statute, "apprebend and by order detain ... each person as to whom there is reasonable ground to believe that such person probably will engage in, or probably will conspire with others to engage s of escionage of sabotage Can yon imagine how that law could be put into operation once an internal security emergency has been declared? No more fooling around with such old-fashioned formalities as doe process or trial by jury or proof heyond a reasonable doubt. Safety first would he the watchword then, not liberty under law.

along with more than 110 colleagues, legislation, as he put it, "to repeal this repugnant statute and to remove the specter of concentration camps from America's future." Hope Eastman, speaking for the American Civil Liberties Union. declared in testimony before the House Judiciary Committee: "The overall impact of this Act is to suspend the Constitution during an 'internal security emergency.' The Act deprives the courts of their constitutional role. Abandoning both the substantive and procedural guarantees which the Constitution contains, it allows

imprisonment on account of a man's ideas." The bill to repeal this monstrosity was approved by the Judiciary Committee and is now awaiting a rule hy the House Rules Committee. The Senate voted for it unanimously in its last session, although the House never got round to action on it. The Nixon administration, and Attorney General Mitchell personally, has given it unequivocal approval. There appears to be nothing in the way of repeal-except that the House Internal Security Committee, with its usual hamhandedness, has cluttered up the prospect by proposing an alternative measure which would merely tinker with the existing law, improving It somewhat hut leaving Its essential vices in effect. Concentration camps in any form have no place in American life. The Emergency Detention Act ought to be erased in its entirety.

CAPETOWN -South Africa's Prime Minister, John Vorster, a blocky, thin-lipped, quiet-voiced man, resembles other world leaders in suspecting the press of being unfairly biased against his policy. He claims this country's papers keep "telling untruths and predicting disasters." "The left and the press have

been crying wolf for years but the wolf never came," he says. "Finally people realized there wasn't any wolf." The "wolf" implies docm, disorder or racial disaster in this complex. many tiered soclety, separated on the basis of skin plgmentation.

Vorster unflinchingly eodorses his Nationalist party's doctrine of apartheid or. as he prefers, "separate development." He envisions a day when so many different black tribes now included in this multicolored population have been granted independence the South African republic

would be continued even if whites domestic policy the U.S. doesn't become a majority through the process Vorster describes: that plus the fact that only 13 percent of South Africa's land would be handed to the blacks. Neverthescribe to it." iess, his determination to launch new black nations according to their widely differing languages in a two-hour conversation. The and customs has already involved trouble is the "wolf" of danger the Prime Minister in trouble he refers to is not external but. like the wolf of hunger, internal, with his party's right wing as well as the less reactionary opa hunger of subdued races for liberty and equality.

A Pendulum Swings In Great Britain

Bv Alfred Friendly

"I, too, have stood breast high-if your lorgships will pardon the expression amid the alien porn."

Viscount Nerwich, House of Lords, April 21.

LONDON.-The British concluded years ago that the revolution against Victorian prudery and hypotrisy about sex was a good thing. Latterly they have been wondering whether they may now have too much

of a good thing. Less than two years ago. a report of a major inquiry by the British Arts Council recommending total repeal of all forms of legal censorship was received with scarcely a murmur of dissent. But in the last few months, sentiment has sharply changed. Demand for more, not less, enforcement of censorship laws has grown impressively.

There seem to have been two principal factors that set the pendulum swinging in the other direction:

 An explosion, in foulness as well as volume, of the activities of the commercial pornographers, publicly advertising with explicitness and stridency their blue films strip joints and exhibi-tions: heavy use of junk mail technique to circulate come-on advertising material of unbelievable offensiveness: and satu-ration of bookstalls with smutty books and magazines.

 A new vogue of public, or semi-public, advice-almost exhortation-to the young encouraging virtually unbridled sexual activity beginning 15 minutes after the arrival of nuberty. In the last few weeks there

were two ultimate shockers: The first was the widespread

bootlegged circulation among high-schoolers of "The Little Red Book," a translation from the Scandinavian. Accompanying tactical and strategic advice about how to outwit school and parental authority and some ostensible subservience to the precepts of good human relations is the jubilant message of uninhibited sexual freedom and even experimentation with soft drugs. Venereal disease, it suggests, is not all that easy to contract.

agree and yet you cooperate. We The second was the prodoction of a commercial sex-education ask nothing more than that Apartheid is not for export and film by a teacher of genetics at we don't expect the U.S. to sub-Aston University, for sale to highschool headmasters and local education authorities. Entitled This is a fair if concise sum-"Growing Up," It shows naked mation of what Vorster told me actors portraying sexual inter-

course explicitly. Public reaction has been intense and to the civil libertarians extremely worrisome. What they fear is a demand that government authorities will be unable to resist for new censorship laws or more stringent enforcement of those that now languish, more or less unobserved, on the books,

A Lesson

Such a result, it is pretty cer. tain, would be a truly damaging regression, once again stultifying legitimate artistic and literary creativity and marking the triumph over society of a new and virulent grundyism. Perhaps the worst aspect would be the attempted imposition of rules that, like the American prohibition laws, cannot be enforced, that corrupt police and authorities and that bring the law

liself into contempt. But on their part, the fiberals have learned a lesson from the new wave of antipornography feeling. They know that then old argument that no one was ever depraved or corrupted by pornography is nonsense. They may be right that you cannot prove that one book, one film one picture, inspired an evil act: but they have also come to realize that a steady wave of filth makes filthy some of those hundated by it, especially the young. A whole day of remarkably

lucid debate . Wednesday in the mon sense, will find a middle course between candor and shame.

The guess is that there will he a sharp campaign, under existities, to end the inexcusable of-1.1 fense -rendered to unsuspecting passersby posed by public ad-vertisements in front of strip . . . 0 joints and blue-movie houses and in the windows of the porn it and parlors. An indication of the sentiment for such action is the fact that the National Council of Civic Liberties endorses it to the hilt 25. 25

Next there seems now to be growing agreement that since Q 1094

the essence of all pornography is sadism, censorship of graphic or written publication of human sexual degradation . and . violence is proper and should be exercised. And finally, there seems to be an increasing consensus that there is-more to sex education for the young than demonstra-

tions of techniques and freeing ----of guilt feelings; that good sexual relations have also to do with privacy affection, grace, mutual respect and honor, and even love.

Rogers, the Quiet One

By James Reston

WASHINGTON.-Secretary of nothing to discourage the pro-state Rogers is beginning to lisraell lobby, which tends to be fact, engaged in some profession-play an increasingly significant critical of Rogers every time he al difference with Mr. Nixon be-role in the Nixon administra-

post-Vletnam policy.

East or German policy.

In fact, there is some evidence

that Mr. Kissinger's support for

West Germany's efforts to reach

an accommodation with the Sov-

iet Union is not pronounced, and

while he was dceply involved in

Middle East policy when Syria at-

tacked Jordan, he has left the

development of the Israell-Egyp-

tian negotiations primarily to Rogers and Assistant Secretary of

Not Easy

This has not been an easy as-

signment for Mr. Rogers and his

THE WASHINGTON POST.

'Compliments' in Athens

Secretary of Commerce Maurice H. Stans hae managed to outdo even the American Ambassador, Henry J. Tasca, in unnecessary praise of the ruling colonels doring the very week in which they were celebrating the fourth anniversary of their destruction of constitutional government in Greece.

At a time when the Nixon administration seemed to have decided at last to open a respectable distance between itself and the Athens regime, Mr. Stans was "particularly complimented" by the presence at his luncheon speech of nine Greek ministere and deputy ministers.

Their presence was a "compliment" not only to himself and his government, said Mr. Stans, but to the 'wonderfully close relations that exist today between our two countriee." He also expressed lavish gratitude for the "eense of eecurity that the government of Greece is imparting" to American hosiness firms—an unfortunate choice of worde if ever there was one.

Mr. Stane dld not minimize the damage by subsequently insisting that he is "not a political officer" and that American policy toward Greece was "fully covered" by the

statement last month of Secretary of State Rogers, which was critical of the junta for its failure to move toward constitutional government.

After the Stans performance, how can anyone expect the colonels to take Mr. Rogers serionsly or to give the weight evidently intended to President Nixon's message last month to the exiled King Constantine on the 150th anniversary of modern Greece's independence-a message that referred significantly to "the democratic spirit" and the "struggle for freedom" of the Greek people? A case can be made on both political and

strategic grounds for maintaining correct relations with the colonels and for keeping Greece in NATO, When the courageous antijunta newspaper publisher, Helen Vlachos, was asked how ehe expected Washington to act toward the colonels in this situation, she replied. "At least stop making love in public." Mr. Stans'e clumsy effort to do just that is a cruel blow to America's real friends, the Greek democrats, who are now united as never before in their effort to rectore democracy in the land that gave the word to the world.

PARIS- Down with the Senate, Long live Socialism," were the cries heard along the Paris boulevards last evening. Socialist disturbances of a most serious character, when taken in connection with the existing Ministerial crisis, occurred in various parts of Paris. following an overflow meeting in the Tivoli Hall. Matters reacheo a height in the Place de la Republique where the crowd was charged by cavairy. There were wounded on both sides.

might actually have a white majority. "That is our aim," be insists.

"I have just met leaders of the Tsonga people from North Transvaal and it was very useful. I also recently talked with leaders of the Ciskel.

Since 1936 we have been wedded to a program-started under the United party government of Smuts-to buy about sixteen million acres and add that to the lands already in possession of the black people. This has cost hundreds of millions but all will be bought. Only about three millions acres remain.

White Majority

"These homelande will gradually receive fuli independence like Swaziland, Lesotho and Botswana. The time will come when whites are actually a majority here [in the republic]. That is the idea. Look at the situation. There are about four million Transkei people. They will be out. There about four million Zulus. They will be out. There are about seven bundred thousand Tsongas. They will be out.

"My sim is to create new African countries and help them to independence." When I asked whether one man, one vote would then apply after the present black majority had been diminished, he said succluctly: "According to color. Each people will vote for the officials of its people.'

There, of course, is the rub: the fact that the pousse-cafe system of a racially layered society

Offensive Tourists On Good Friday, when Passover was to begin at sundown, a religious day for Islam too, Moslems, Jews and Christians were making

pilgrimages in Old Jerusalem. There was an incident at Herod's Gate. Onto the scene sauntered a young Western woman and her date. Her nether portions were clad in tight orange jeans, upper portions in tight, low-cut, sleeveloss jersey. His jeans were equally tight and he made himself part of her costume by draping himself about her as they walked, Both appeared to be in their mid-20s, adults.

To Westerners, this picture presented regrettable bad taste, deplorable but dismissable. To Easterners, however, it was quite nbjectionable-especially to Moslems, to whom bare arms or

sive, and to touch a woman in public is forbidden. A Mosiem cab driver braked to a stop, ran over to confront the couple and began gesticulating and reprimanding them in Arabic. Fortunately, both Westerners remained immobile and slient, apparently uncomprehending. When the driver returned to his passengers, the couple continued over to a shop, she

leased while a war continues? with left hand on swinging hip Don't "we" hold ten times the in the best of seductive fashion. number of prisoners "they" hold? The incident was over, but the Are we "good" to ours while West was down by a people-tothey're "bad" to "theirs"? price increases had continued to moderate during March. The rise NEW YORK, April 25 'NYT' .-of only two-tenths of I percent last month reduced the first Optimism over prospects for the economy and for the financial quarters increase to an annual rate of only 2.7 percent, the best performance in four years. In 1976, the advance had been above markets continues to be the watchword in government, business and investment circles-a sentiment that is rather solidly 6 percent. based in recent economic statistics

Meanwhile, consumer buying of general merchancies and durables The economy is moving up cars, television sets and other appliances) continues at the higher tempo that it assumed as the year progresses. Moreover, the stock market also seems to carlier this year. And buying of apporel, which surged strongly in the pre-Easter week, has be beaded still higher—and per-heps across the 1.000 barrier in the Dow-Jones industrial stock maintained a fast pace ever since. For the week ended April 17, the Department of Commerce last week after reaching a 23-menth peak on Monday. The market, however, closed on a firm reported copartment-store sales rose 4 percent above the year-ago period and total retail sales across the country increased by a highly satisfactory 7 percent. The cautious American public, which had

been saving at the historically high 7.6 percent rate late last

year, reduced savings to a 7.2 percent rate in the first quarter and bas been loosening the purse strings even further ever since.

Another significant develop-ment was the report that pro-ductivity had increased by a strong 5.3 percent in the first quarter, helping 10 offset an unusually large rise in labor compensation.

With the economy improving, consumers spending more liberally, productivity gaining and inflation coming under better con-trol the stage is set for a strik-Ing rebound in corporate profits this year. They are Biready be-ginning to show it.

A preliminary tabulation of first-quarter earnings from near-ly 700 corporations by the First National City Bank of New York disclosed a 4 percent gain to an aggregate of \$3.4 billion, the first ycar-to-year increase since the middle of 1969, just before the start of the recent recession.

Amex and Over-Counter

NEW YORK, April 25 (NYT) .- The American Stock Exchange index was up .02 to 26.51 last week while volume dropped to 25,-

 T74.365 shares from 29,145,405 the week before.
 Syntex was the most active issue for the week with 431,100 shares sold. It closed at 60 1/2, up 7 1 8 for the week. Braniff Arrways Class A, with a volume of 416,700 shares, closed at 11 3 4, up 3 3 for the week. Milgo Electric, which traded 289,400 shares, closed at 22 7 8, up 3 1 4.

Resort International, with 283,70 shares sold, closed at 9 1 8. up 1 3 8. Consolidated Oil and Gas, with 261,500 shares sold, closed at 12 1 4, up 1 7 8 compared with the previous week. Asamera Oil, with a volume of 190,000 shares, closed at 21 3 4, up 1 8. During the week advances outnumbered declines on only one

day. Friday, when there were 495 advances compared with 412 declines. The Over-the-Counter market showed a rise for the week. The National Quatation Burcau's index of 33 industrial issues rose to

As Signs Point to a Healthier U.S. Economy The bank said the improvement was widespread, with 58 percent of the corporations reporting greater earnings than in the cor-

responding period of 1870. Adverse Picture

Page 9

All the background news last wrek was not favorable, however. On the adverse side were: the Commerce Department's report that orders for durable goods had declined 2.2 percent in March aud the tentative move in the House Ways and Means Committee to raise Social Security taxes Bgsln.

The drop in orders for durables last month was in contrast to the revised figures for February, which now show a rise of 1.5 percent instead of the drop of 1.7 percent originally indicated. Most of the latest decline was attribut-ed to a fall-off in business in the rail-equipment and shipbuilding industries. There was only a "mild, steady upturn" in other industries.

The Ways and Means Committee's action setting higher Social Security taxes, if sustained by the Congress, would be a tax blow for all employed persons. Instead of the tax relief they had been hoping for next year, they will be faceo with higher levies in an Brea that generally goes unrecognized. Of course, the carrot on

the stick is improved benefits. The plan now is to raise the annual wage base on which So-

cial Security taxes are paid to \$10,600 next January, instead of the \$2,000 scheduled at present. The base currently is \$7,800. The tax rate would also go up-tn 5.4 percent of the wage base from the present 5.2 percent.

A recent article io the Morgan Guaranty Survey called attention to the little-realized fact that Social Security taxes are impos-

these on housing and retail sales. give added assurance that a new expansionary phase is well launched, There was also a suggestion of firmer business conditions in the quarter-point increase to 5 1 2 percent effected last Thursday in the prime lending rate of the major banks, although the action

was related primarily to the slightly less generous monetary policy of the Federal Reserve and the stiffening of short-term interest rates, particularly on ne-

getable certificates of deposit, an important source of lendable

The brightest news of the week

Registered Office: Luxembourg, 37, rue Notre-Dame

The Shareholders are invited to attend an . Extraordinary General Meeting, which will be held on 14th May, 1971, at 3.00 p.m. at the Registered Office in Luxembourg with the following

.

Agenda Amendment of the Articles in conformity with ĩ. the requirements for obtaining a quotation on the London Stock Exchange. Full details of the proposed changes will be published in the Mémorial Recueil Spécial in Luxembourg on 26th April and 5th May 1971. gan ya siya wa kawa wa Any other business. 2.

Shareholders are notified that the resolutions of the Agenda may only be taken if at least 50% of the shares outstanding are represented at the meeting. Should such quorum condition not be fulfilled or should the Board so decide for other reasons, a second meeting, which will not be subject to such quorum requirements, will be called by additional notices. In such event the vote on all items of the Agenda will be adjourned to such second meeting which, if required, is expected to be held on 18th June.

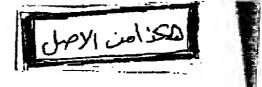

In accordance with Luxembourg law, in both In accordance with Luxembourg law, in both meetings, resolutions will be subject to a majority of two-thirds of the shares represented at the meeting, provided however that at the second meeting, shares not represented will (in a number not exceeding one-third of the total number of the outstanding shares) be deemed to vote for the above resolutions proposed, and provided further that in such latter case the resolution must be voted by the majority of the shares

represented at the meeting. In order to attend the meeting, holders of bearer shares should deposit their shares on or before 7th May, 1971, with the following Banks, such deposits to be maintained and to be effective, in the event the Shareholders' Meeting of 14th May fails for lack of quorum, also for any postponed meeting.

Exchange Stages Its Sharpest Upswing

By Philip Greer NEW YORK, April 25 (WP).—A little over a week ago, the airman of the New York Stock Exchange gave President Nixon statue of a bull, the symbol of a rising stock market. The chart ove shows why.

Since last May, when the President met with a group of Wall rest leaders, the market has staged its sharpest upswing in shary. From a low of 631.16 on May 26, 1970, the Dow Jones distrial average of 30 blue-chip stocks has climbed to 947.80 at e close of last. Friday-a rise of 316.64 points, or a shade over percent in just under 11 months.

At the time of the meeting, the President suggested It was a of time to invest in the stock market. That turned out to be ind advice, but not many people took it. The big rally has been ded largely by the activities of mutual funds, insurance companies a other investing institutions. Even now, with economic figures enting to at least a gradual npturn in the economy, individual restors are accounting for only 30 percent of the volume on - NYSE

Market sttenlion at the moment is riveted on the all-time high in the Dow industrials, 995.15, recorded on Feb. 9, 1966. The preralling sentiment in Wall Street calls for the average to puncture that level and go sailing over the 1,000 mark before the end of 1971.

A number of reasons have been clied to account for the market's boom. Chief among them is the simple fact that the 1970 recession seems to have hit bottom late last year. From then on, lhere has been a slow upturn, highlighted by the sharply higher economic figures produced by the rebound from last fall's strike at General

Historically, stock markets record their biggest advances at the beginning of an economic recovery and the current rally is no exception. Where it goes from here depends on a long list o variables such as the war in Southeast Asin, the psychology of the American consumer, the fiscal and monetary policies of the govern-ment and-not to be forgotten-the political moves leading up to the presidential election of 1972. The possibilities are endless but then, that's what makes n stock market

gains this week, the market was thoroughly mixed affair, with 814 issues advancing, 883 declining and 140 closing unchanged. The Dow-Jones industrial everage rose 7.58 points to 347.79; The New York Times combined avernge added 7.64 to 554.02; the Standard & Poor's 500-stock in-

New York Stock Exchange composite moved up 0,26 to 57.32. Trading on the Big Board continued heavy at 92 million shares

averages negotiated moderate had been the third most active week on record.

The Southern Company, the week"s most netlye stock, fell 3 4 to 23 7/8 after trading Friday at a 1971 low of 23 5/8. Volume ran 947,100 shares,

Higher Profits Earlier, this utility holding company had reported slightly higher profits for its latest 13 months. But its stock has declined recently along with numerous other utility issues as higher infor the week, but the volume was

627,800 shares.

fare increases, cost-cutting moves and a better regulatory climate,

Eurobonds

(Continued from Page 9)

terest rates on bonds pose a comconsiderably below the preceding week's 102.8 million shares, which petitire investment factor.

Chrysler, running No. 2 in the active race, posted a gain of 2 3.8 point: to finish at 33 after selling at a yearly high of 33 3.8. A total of 779,400 shares changed hands. Chrysler reported better-than-

expected quarterly profits. Texas Gulf Sulphur, which announced a sharp decline in March-quarter earnings oropped

1 1/4 to 21 3/8. Turnover was Braniff Airways added 1'2 to 11 3/4 and Eastern Air Lines climbed 3 1/2 to 26 5/8 as both

issues rose to 1971 highs. Volume amounted to 825,100 shares and 623,400 shares, respectively, in a week that produced good gains for the airlines. This reflected

and Courtesy-with American appeal!

We've just opened our first branch outside the U.S.A. in the City of London.

And for good reason too.

We are interested in the Eurocurrency market and London being the financial centre it is, was the obvious place to start.

From now on we'll be delighted to handle all your Euro-activities for you.

We can provide off-shore financing for Japanese and American orientated and overseas companies interested in expanding their activities into the international market, and participate in, or organise syndicated loans.

Acting as trustee and/or paying agent for foreign (Euro) currency bonds and depositary for bearer depositary receipts.

Of course, all this is in addition to our normal services as an international bank.

Efficiency and courtesy.

> The business community throughour Europe relics on the Herald Tribune for essential world-wide business news. Day after day.

Eaker, Art Buchwald --read them in the Tribune.

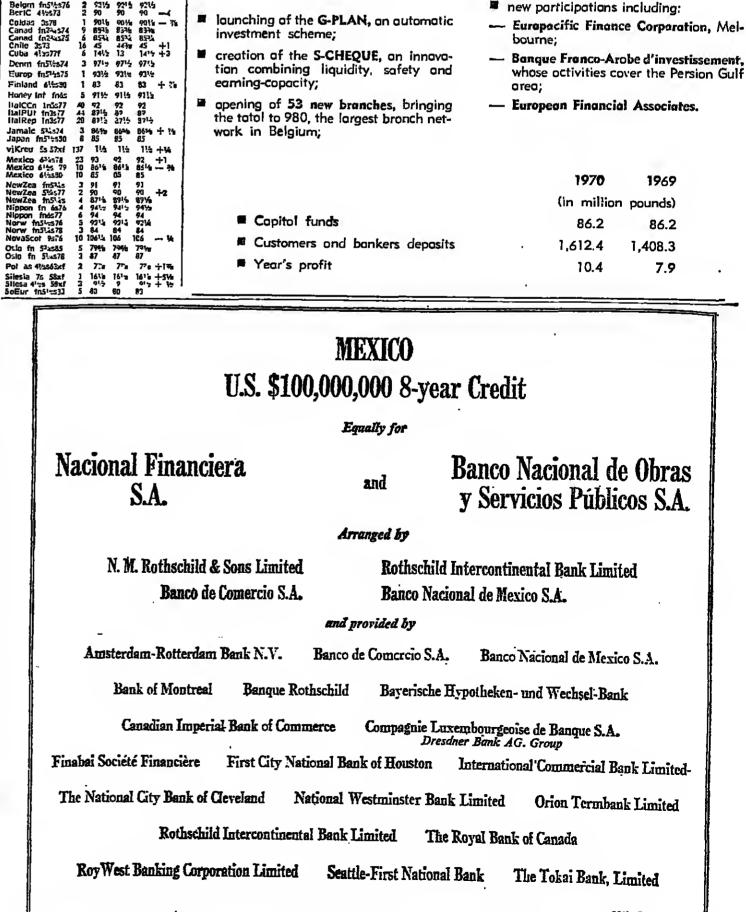

They also say that the market is ripe for a high-grade U.S. con-vertible offering-there has been only one so far this year, from Ford. With Wall Street prices at a 23-month bigh and traders there once again talking about the likelihood of the Dow Jones industrial average vaulting the 1,000 mark, some bankers believe a convertible would be gobbled up here. Others, however, note that with stock prices so high. few firms are likely to want to give away shares for the threepercentage point difference that a convertible could probably save its borrower.

On the secondary market, con-vertibles scored sharp gains with the Philip Morrris 4 3/4 percent issue up 7 points, International Standard Electric's 5 percent up 5 and the American Brands 5 1/4

percent up 4. Straight bonds gained half-a-point on average, fueled by buy-ers seeking to purchase bonds they had sold short, traders report

ELECTRICITE DE FRANCE

has just launched on the inter national money market the issue of a loan of 40 million dollars unconditionally gua-ranteed by the French Government. This operation is of-fered in two parts: a 7-year loan of 20 million dollars and a 15-year loan of 20 million dollars. The 7-year debentures bear a yearly interest of 7 2/3%. The issue price has been fixed at 99%. The 15-year debentures bear a yearly interest of 8 1/2%. The issue price has been fixed at 99%. The loan, the placement of which is ensured by an international banking group head-ed by the BANQUE NA-TIONALE DE PARIS, the BANQUE DE PARIS & DES PAYS BAS, the CREDIT LYONNAIS, the SOCIETE GENERALE, the CREDIT COMMERCIAL DE FRANCE LAZARD PRERES & Cie, the BANCA NAZIONALE DEL LA-VORO, the DEUTSCHE BANK A.G. and the SOCIETE GENERALE DE BANQUE has been very well received by international investors.

Ψ.

South had a normal no-trump opening bid on the diagramed deal, and North had a responding problem. He could have raised to three no-trump, but the singleton spade represented a danger signal.

If South was weak in spades, the no-trump game might be hopeless. A game contract in hearts, diamonds or clubs might be appropriate.

a Stayman two-club bid and continued with three no-trump when his partner showed spades. Such bidding normally shows a fourcard heart suit, and South would have bid four hearts at this point if he had held both majors. North would then have left him to play in a 4-3 fit.

West was not deterred from leading hearts by the likelihood of finding four cards in that suit in dummy. He led the heart two, a false card intended to give the impression that he held only four hearts, not five.

the heart queen would have been more effective. The lead of the deuce permitted South to win the first trick with the ten, and he continued by cashing the diamond ace and overtaking the queen with the king.

There was no hurry to cash the remaining diamonds. South ran the club jack, and West played his second false card in the deal, a more significant one, by winning with the ace instead of the queen.

also careless at this point. He won the next heart lead with the king, confident that he was going to make 12 tricks for a fine match-point score. He crossed to the heart ace, cashed his

HISTORY OF THE SECOND WORLD WAR By B.H. Liddell Hart. Putnam. 768 pp. \$12.50.

Reviewed by Thomas Lask

Hart's magisterial survey of the over the planet, men were killing instead of months later. So or being killed and not always belligerants. Names that would never enter our consciousness were part of the morning's headlines: Port Moresby and Dutch Harbor, Kwajalein and El Alamein, Monte Cassino and Corregidor.

Liddell Hart never lets us forget the colossal scale of the confilet. For he does not treat each of the campaigns as separate entitles, but dovetails the theaters so that it is like watching a gibbe turning in slow motion as the events unfold before us. The span in time was large

enough, but the technological changes unmeasurable. At the beginning of the war, the Poles met the German Stukas with cavalry charges. At the end, the Americans used the ultimate equation of nuclear physics: the atom bomb. The other com-sequences of the war cannot be charted even now, a quarter of a century later.

But the author, who died last year, bothers with none of these things only with the way men went about destroying their enemies. His history has the spareness of a communiqué and is of greater objectivity. It is completely free of emotion or strong feeling or moral judgments There is no right or wrong, only success and failures. Although his interest appears to lean to the European war, his book is judicious in proportion, balanced in emphasis and almost Jovian in judgment. It is thoroughly without art or artifice. It was, made not to entice but to inform. As befits a distinguished and

influential thinker, who figured in some of the things he writes about he is vigorously in-dependent. Those who remember the glory of Montgomery's victory at EI Alamein will find ; that glory considerably diminish-ed under Liddell Hart's scrubiny... For the man who turns out to have been of equal it not greater. ability was Montgomery's pre-decessor, Claude Anchinick. By the time Montgomery took over, the issue was not in doubt although the pattern might have been different without him.

He gives Montgomery credit in . Europe for thoroughness, for way will be as talm and con-taking great pains, for over trolled as the author. He'll looking nothing. And he says find himself responding to names looking nothing. And he says that the general was able to change plans in a campaign when the situation changed .But the picture he draws of the Englishman is that of a man who gnawed at his opponents,

W/HAT is made startlingly landing and that if the fuel clear in B. H. Liddell needed for Patton had not been diverted to the British general battles of World War II is that it in September, 1944, the war was truly a "world" war. All might have ended shortly strongly does the suthor hold this view that it is one of the few places in the book where he loses a little of his calm. If the book has a hero, it is if h S Heins Guderian, the German tank commander. His assurance, 11 of to Gen. Manstein that tanky

could get through the Ardennes made the Manstein plan for attacking France workable. And of iCS Guderian's own understanding and use of armor proved him to be the most decisive and outstanding soldier in the over-running of the West. Iddei Hart seems to have no doubt that Guderian's performance as the commander of tank force, that raced through France was the most brilliant of all the feets in the war, both in understand-ing the nature of the arms he commanded and his executive a ability in using them. He admised Patton, too, for the same excessive attention he gives Rommel's North African cam-

paign derives in part from the author's fascination in seeing a master craftsman at work. He is equally independent and equally severe in his judgment of the way the Bulish dealt with Hitler and encouraged him in his foreign policy. He mays that Chamberlain's sudden reversal in

attitude in guaranteeing Foland's independence startled the German dictator who had been encouraged by the British to turn East. Hitler couldn't believe that after giving up Czechoslovakis. which could have been halped, the British would fight for the Poles whom they couldn't help. When during the Minich eriss and after, the Russians suggested alliances to stop Hitler, the British were aloof and alightly contemptuous. And just before 55, 55

contemptions. And just before the stain-the Stain-Hitler pact, when the sub-British went to Moscow to see set 30 what could be negotiated, they shows still acted as if the Russians station needed them. What was worse in station the author's view was that too space much of British policy was bas-- CPT 67 ed not on cold reality, but perfor example, let religious scruples interfere with the choice of 7972 England's friends and foes. 20216-33

Foster peppered the challenger with jabs and scored a unanimous decision in the sixth defense of his portion of the title. The World Boxing Association

withdrew Foster's crown last year, claiming he had not defended often enough against top op-ponents. The WBA now cecogaizes Vicente Rondon of Venesuela as its champ.

There was nothing close to a knockdown in the dull bout ot Curtis Hixon Hall before a crowd of 4,112. Heavyweight champion Joe Fraziec sat at ringside and tried

to coax Anderson, his stablemate, to throw more punches, but Anderson was so unresponsive that manager Yank Durham frequently turned his head from the action to share his disgust with Frazier.

Scoring was hy three judges but not by referee Lee Sala. Sam Klein had it 148-139. Bob Dlaz 145-140, and Floyd Golden 149-138 as scores were announced after each cound to'n national television audience.

Weighty Problem

The fight marked the first title defense in which Foster dld not score a knockout. Ris official weight was 170-1'4, but tcainer Blily Edwards said the scale was wrong. He insisted that Foster weighed 174,

Anderson, 172-1/2, toce after Poster at the opening bell and scored a swinging right to the hip but immediately began dancing in wide strides to either side of the champion from Silver Spring, Md.

Frazier, who knocked out Foster in two rounds in November. repeatedly pleaded with Anderson to "stay close . . . punch more . . . gamble more ... hook-hook-hook." Except foc an occasional surprise combination of punches. Frazler's exhortations went unheeded. Just before the bell for the

12th round. Anderson looked down at Frazier and said, "I am going to knock him out in this round." Anderson did win the round by

scoring heavily with a double left hook to the head and a right cross. That was his last gasp. Anderson, 26. apparently planned on tiring Foster, 32, by setting a fast pace. The champion did not take the bait. Instead, he walked with giant steps rather than run after Anderson and although Foster appeared to be weary at times during the late rounds, he finished strong.

Dcrek Bell came in second but Alfa Romeo 33-3s took third, The victory was the 43d in 48 bouts for Foster, who has five defeats. The loss was the sixth fourth and fifth after a 12th-lap smashup knocked mit twn of the in 40 bouts and fifth in the last seven for Anderson, who also highly-favored Ferrari entries, indrew once. His nose was cut. his cluding the prototype of Belgian Jackle Ickx. left eye was nearly closed and his The crash involved four cars right eye was bruised.

EYE CLOSER-Light-beavyweight titleholder Bob Foster connects with left jab to face of challenger Ray Anderson as champ successfully defended his title by gaining decision,

assisted on both goals. Before the period was over, Stan Mikita had ballooned Chicugo's lead to 4-0.

Canadiens Take Lead

BLOOMINGTON, Minn., April 25 (AP) .- The Montreal Canadiens, behind Frank Mabovlich and Jacques Laperriere, frustrated the Minnesota North Stars, 6-3, last night to take a two game to one lead in their National Hockey League Stanley Cup semifinal best-of-seven series.

Mahovlich scored one goal and assisted on two others and defenseman Laperrière gunned in a pair of goals to support the solid goaltending of Ken Dryden, who stopped 30 Minnesota shots,

The teams meet in the fourth game here tonight. The cheers from the crowd of 13,364 had barely ceased after Murray Oilver's goal had given the Stars a 1-0 edge when Mahovlich converted Jacques Lemaire's rebound at 3:37 of the first period

for a 1-1 deadlock. Mahovlich and Lemeire team. ed again for the tle-breaking tally at 17:39 of the first period. Mahovilch took the puck behind the nct and centered for Lemaire. The Canadiens then scored

three goals in the first 10 1/2 minutes of the second period for a 5-1 margin. Yvan Cournoyer streaked past Minnesota's Danny Grant and beat goalie Cesar Dodgers' Singer Wins Opener

INTERNATIONAL HERALD TRIBUNE, MONDAY, APRIL 26, 1971

ed a sacrifice fly and Bob Valentine made it 4-1 with a run scoring single-his first hit of the season

Cards 5, Phils 4 Joe Torre, hitless in four previous at-bats, can his batting streak to 19 games with a twoout, bases-loaded single that capped a three-run rally in the ninth inning and gave St. Louis a 5-4 victory over Philadelphia. Trailing 4-2, the Cards started their winning cally with one out when Dick Selma walked pinch hitter Bob Burda and Ted Size-more singled. Woodie Fryman replaced Selma and Joe Hague, another pinch hitter, singled home a run. The tying marked

Sunday

scored on Lou Brock's forceout. Pirates 6, Giants 2

Vic Devalillo drove in three runs with a pair of singles, pacing Pittsburgh to a 6-2 victory over San Francisco.

Nelson Beiles survived 11 San Francisco hits to pick up the victory with last-out relief heip from Dave Giusti.

Cubs 9, Mets 3

Pitcher Ferguson Jenkins and Johnny Callison each dcove in three runs to lead the Chicago Cubs to a 9-3 victory over the New York Mets.

Jenkins, hurling his fifth straight complete game, was nicked for three runs in the second inning-two of them unearn--and then retired 16 batters in a row before Bob Aspromonte singled with one out in the seventh, Jenkins now has a 3-2 won-lost record.

Expos 2, Astros 1

Bill Stoneman fired a threehitter and Montreal scored a pair of uncarned runs to defeat Houston, 2-1, and sweep their threegame weekend series.

The only run off Stoneman. 2-1, came in the first inning on Roger Metzger's double and a single by Bob Watson. Metzger singled in the sixth for Houston

Gullet Pitches Reds to Split CINCINNATI, April 25 (AP).-Don Gullett fired a six-hitter and Wert, Frank Howard and Tom McCraw gave Washington a 3-2 Skip Lockwood on McCraw's double and Dick Billings's pinch Tony Perez, who had gone 0-for-18, smashed a homer as the Cinvictory over Milwauker. single befoce Ken Sanders and Ellsworth retired Tim Culten and

LOUISVILLE, Ky. April 25 Liquori Completes 2 Victories For Villanova in Penn Relays

By Neil Amdur

PHILADELPHIA, April 25 last leg on the Wildcats' fourmile and two-mlle units, (NYT) .- Marty Liquari af Villa-

nova wound up an undefeated Penn Relays career yesterday, but was about the nnly measure m form to survive a string of surprises at the 77th annual track and field carnival.

In a meet that left 30,000 fans limp from excitement at Franklin - Field, such impressive new cham-plons as South Carolina, Adelphi and Norfolk State joined the Wildcats in the record books.

New heroes popped up. A freshman at Penn State, Gene White, leaped 7 feet 2 inches in the high jump. The Dyce brothers of New York-Bryon Dennis and Trevor-running as a team for the first time won an Olympic development sprint medley relay from an impressive field.

Liquori, who anchored Villanova's victorious distance medley team Friday, returned to run the

running.

hour.

Kinnunen.

The 21-year-old senior fiddled with Kaci Thornton of Penn during the mile leg of the foucmile relay and even allowed Thornton to turn a 20-yard dcficit into a five-yard frad before pulling away to a seven-yard victory.

Liquari's mile time, four minutes 8.1 seconds, was hardly impressive. But when he out-kicked Joe Savage, the fine Manhattan freshman, in a thrilling stretch duel during the two-mile relay, the performance confirmed Liquori's competitive spirit and physical readiness for further tests.

On Friday, Liquori ran a 4:04.1 mile nn Villanova's winning dis-tance medley team. After the cace, Liquari said he had wanted a 3:55 mile to "psyche out" Jim Ryun for their "dream mile" on May 16 in the King Games.

On second, thought, Liquori said, "It's probably better that Jim doesn't know what I can do." In other events in the two-day meet, Adelphi won the Inter-collegiate Athletic Association 440-yard relay; C. W. Post took the IC4A sprint medley relay and South Carolina took the cham-

pionship sprint medley celay.

Observer

The Midnight Bells

WASHINGTON.—The telephone was ringing. Sam sat up in bed, struggling upward out of deep sleep, fumbled in the dark and when he had found the light awitch. looked at his watch.

It was 1 a.m. Wake up and answer the phone," he said to Kate, his wife. "Why can't you

answer it?" she marmured. "I'm having a great dream right now. The children have all just Baker

made the honor roll and the mayor's about to cut the property tax. Marcello Mastroianni has invited me to dine with him in Naples and ...

"I don't want to be caught at the phone." Sam said. "It's 1 a.m. At this time of night there are a lot of people I would rather not be in for."

Kate opened her eyes and listened. Yes, the telephone was ringing. all right. She put her feet on the floor and yawned and with her toes explored under the bed for her slippers.

"If its Martha Mitchell," said Sam, "and she wants to denounce Sen. Fulbright, the Supreme Court, the peace movement or the press, tell her I'm out, If she wants to blast Nixon, the DAR or J. Edgar Hoover, I'll speak to her.

The phone continued to ring as Kate stood up and stretched. "Suppose she wants to attack the astronauts," Kate said. Sam did not even consider this

possibility, because another, even more imposing, thought had occurred to him, "Wait a minute," he said be-

tween telephone rings. "It might be Spiro.' "Not likely," said Kate. "Spiro

is probably still recuperating from his last predswn chat with the press."

The phone persisted.

. . .

"Spiro is in great condition and can easily go again tonight," Sam said. "Find out if he wants to attack the Republican party, the White House staff or Martha Mitchell, and if he does tell him I can get to his place in 30 minutes. If not

By Russell Baker Kate sat down again and yswned. "If it's Spiro," she said, "he has probably been up all night editing yesterday's front pages and he wants to show you now they should bays been wrltten."

Sam pondered that likely possibility and thought that Kate was elmost certainly correct. These calls in the night! How he hated them ever since the Republicans came to Washington!

The phone rang and rang. All day long, Sam reflected, Republicans were so proper in their group wool, their sparse hair, their mouth-slightly-up-at-thecorners good-decent-folks smiles. Then, at midnight-midnight affected them the way a full moon affected Lon Chaney jr. The ringing rang releatlessly. ...

"Of course, it could be Marlene." Kate murmured, referring to their collegiate daughter. "If it's Marlene," said Sam, lying back on his pillow, she wants me to wire her \$50 immediately."

Kate closed her eyes. She was making an intense effort to will herself into a restaurant overlooking the Bay of Naples. The phope rang as though it

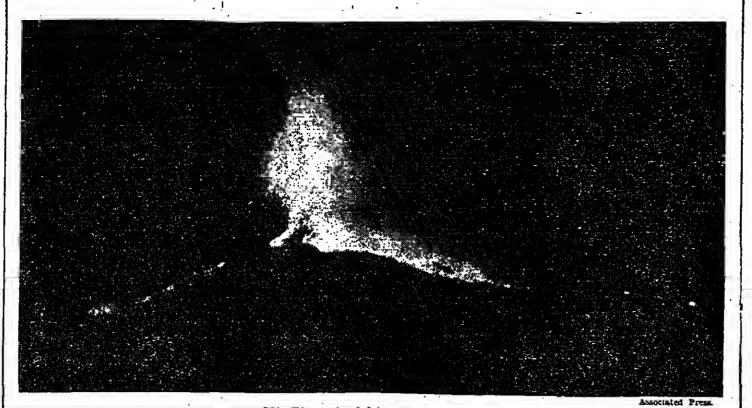

intended to ring forever. "I think." said Sam, drawing the blankets sbout him, "tbat there is a very good chance that it is a mschine calling." His

eech was becoming slurred. Mayhe one of those machines that rings you up and invites you to a banquet." Almost unconsciously, he found the light switch and turned it off. "A banquet at which real estate men who are selling swampland in Florida threaten to ring your phone at 1 a.m. for tha rest of your life, or until you buy a piece of swamp. A swamp in

which The phone rang, but it was dispirited now, and tired.

Kate was heaming scross a restaurant table at Marcello, and Vesuvius was smoking in the background, and Kate was delighted to discover that she was, suddenly, perfectly fluent in Italian, and Marcello was saying, "and I am especially happy to inform you that the federal government plans to give you a huge refund on your income tax

INTERNATIONAL HERALD TRIBUNE, MONDAY, APRIL 26, 1971

Mt. Etna at night, a regional asset.

After Three Years of Silence

Etna's Eruption a Boon for Sicily's Tourism

. By Paul Hofmann

CATANIA, Sicily, April 25 (NYT) .--Europe's largest active volcano, Mount Etna, is spewing masses of molten rock and, every now and then, a few incondescent boulders in its present eruption, the 11th in this century, and is attracting thousands of sightseers,

The people who live on the 10,725-foot slopes are more pleased than frightened. Lava slowly streaming down from two groups of new lateral craters some 10,000 feet up on the south side has destroyed an observatory near the summit and damaged the 12-year-old cableway.

However, none of the farms and many villages on the lower, extremely fertile, area of the cone-shaped volcano are threatened and no one is preparing to flee, [More lava today slowly flowed down the slopes of Mount Etna and threatened the intermediary station of a cable car, which used to take tourists and scientists almost to the volcano's summit, Reuters reported.]

Etna reswakened after three years with the roar of explosions on April 5-just in time to offer Easter vacationers one of nature's great shows.

"If the mountain keeps behaving the way it has been these last few weeks, we can only he grateful," said Eufemia Russo, who sells picture postcards at Nicolisi, the village closest to the eruption area. "It would be great for business if the mountain just kept rumbling on until autumn." To the wine and citrus growers, truck farmers and tourist guides who live on and around Etna, one of the world's most densely populated nonindustrial areas, the

volcano is "the mountain," a capricious monster that seems good-natured enough now but has been terribly destructive in the past.

Prof. Forse Wezel, who teaches geophysics at Catania University and recently spent a year at U.S. scientific institutions. said that there would probably be ups and downs in activity during the next few weeks or months.

"We are becoming more and more convinced that volcano eruptions, like earthquakes, are interconnected with a host of other natural phenomena," he said.

Prof. Alfredo Riettmann, president of the Catania-based International Volcanological Center, sees no imminent danger for the villages. An Eina véteran, Prof. Riettmann, who taught at Catania University until his retirement a few years ago, has been climbing close to the snow-capped summit almost daily during the current eruptions.

Tourists can get as high as the intermediste stop on the cableway, at about 7,500 feet, but are dissuaded by policemen from climbing much beyond that. The upper section of the cableway shut, down when a lava stream enveloped the terminal building early this month.

The most spectacular eruption in this century occurred in 1911, when 79 craters and cracks burst in the northeastern flank, throwing out millions of tons of lava in only two weeks,

Lennons Denv. **PEOPLE:** 'Kidnap' Charge

Former Beatle John Lennon and his wife. Yoko One, fiew to Paris Saturday night from Palma de Mallorca, leaving behind an unresolved sccusation of "kidnspping" brought by Mrs. Lennon's former husband. Earlier, the Lennons denied they had sttempted to scduct 7-year-old Kyoko Coz. Yoko's daughter by her ex-husband, American Anthony Cox. The couple, however, was put under the jurisdiction of a Spanish court until resolution of the charges brought by Cox. The Lennons, who arrived in Palma on Wednesday, explained through spokesman Les Perrin that they had driven on Friday to Calas de Mallorca to visit Kyoko at her school and take her snopping. Eyoko nau pern living in Mallorca with her father during the winter and spring.)

"The child," continued Perrin-"recognizing her mother, ran forward and clung to her in an embrace. Yoko carried the child to her car and drove back to the Hotel Melia, where she and John had been staying. Yoko was concerned about her daughter's health and as she appeared to be running a fever, it was therefor de-cided to call a doctor . . . To the astonishment of both Yoko and John, simultaneous with the grrival of the doctor, members of tha local police also appeared. From what the police stated, it appeared that Mr. Cox had lodged a complaint stating that Kyoko had been abducted by two strangers . . It should ba emphasized that when the marriage of Mrs. Lennon and Mr. Cox was annulled, no order for custody of Kyoko was made in favor of either party. Mrs. Lennon is, of course, most anylous to obtain custody of her daughter

as she is concerned about the. child's health and education." Following an all-night investigation of Cox's charge, the Len-: nons were told they could leave

Mallorca, but ordered to report to the court on the first and 15th. days of every month until the case is resolved. The court gave Cox custody of Eyoko pending further inquiries. * * *

You call it' what you want to call it and we'll call it what we want to call it, hnt the AP calls it "cow chips" in one dispatch and "cow pats" in a later bulletin, and the point is that Oklahoma Governor David Hall can throw it further than any other
